MYSTERY RINGS IN EUCLID, OHIO

The remnants of two rings can be found on the back lawn of Mr. and Mrs. Albert C. Weber, a plumbing contractor.

Mr. Weber said that the most recent ring, which is easily distinguishable, appeared about three weeks ago. The older ring, still visible in parts, appeared in late April or May. Both rings are approximately 15 feet in diameter. A browned-out swath in the most recent ring is 1-2 feet wide, and forms a good circle. The Webers told Mr. Nice and the Editor that no deposits of any kind were seen by them anywhere in the area of the rings.

The older ring, on the left edge of their lawn, is 52 feet from the house; the newest ring is only 39 feet away, on the right edge.

Dirt and root samples will be tested. A Kent State University Professor said in the past, that these are the by-products of fungus growth. Pictures of the most recent ring were taken, as it is still visible.

WHAT MADE THE RINGS?

Mrs. Webber claims that just before the first ring appeared, she had undergone an eerie experience, and still isn't sure what she saw.

She had left her French poodles out at 3:00 A.M. As usual, she turned on the lights which illuminated the lawn of the back yard. The weather was misty and foggy, but she saw something that made the hair on her arms and head stand on end. Out there, on the left side, was a light colored object whose shape reminded her of a toy spinning top. The lower part was invisible. On the right side, vertically, stood a sail-like projection. The "top" stood about 6 feet tall.

She quickly called her dogs into the house, shut the door, doused the lights, and looked out the window. She could see nothing. She doesn't know why she didn't illuminate the area again.

She waited till 6:30 A.M. when her husband got up before she told him.

Soon after the first donut ring of burned-out grass appeared, 50 feet from the house. She noted that the dogs did not act up during this episode. Exact date unknown, but their guess was late April or early May.

14. Did the object disappear while you were watching it? If so, how?

disappeared behind the house

15. Did the object move behind something at any time, particularly a cloud?

(Circle One):

☒ Yes

☐ No

Don't Know.

IF you answered YES, then tell what

it moved behind:

Behind House

16. Did the object move in front of something at any time, particularly a cloud?

(Circle One):

☐ Yes

☒ No

Don't Know.

IF you answered YES, then tell what

in front of:

17. Tell in a few words the following things about the object:

a. Sound

Screaming sound just before seeing it.

b. Color

Grayish white

18. We wish to know the angular size. Hold a match stick at arm's length in line with a known object and note how much of the object is covered by the head of the match. If you had performed this experiment at the time of the sighting, how much of the object would have been covered by the match head?

No Go

19. Draw a picture that will show the shape of the object or objects. Label and include in your sketch any details of the object that you saw such as wings, protrusions, etc., and especially exhaust trails or vapor trails.

Place an arrow beside the drawing to show the direction the object was moving.

20. Do you think you can estimate the speed of the object?

(Circle One) Yes No

IF you answered YES, then what speed would you estimate?

FAST

21. Do you think you can estimate how far away from you the object was?

(Circle One) Yes No

IF you answered YES, then how far away would you say it was?

22. Where were you located when you saw the object?
(Circle One):

- a. Inside a building
- b. In a car
- ☒ c. Outdoors
- d. In an airplane (type)
- e. At sea
- f. Other

23. Were you (Circle One)

- a. In the business section of a city?
- ☒ b. In the residential section of a city?
- c. In open countryside?
- d. Near an airfield?
- e. Flying over a city?
- f. Flying over open country?
- g. Other

24. IF you were MOVING IN AN AUTOMOBILE or other vehicle at the time, then complete the following questions:

24.1 What direction were you moving? (Circle One)

- | | | | |
|--------------|--------------|--------------|--------------|
| a. North | c. East | e. South | g. West |
| b. Northeast | d. Southeast | f. Southwest | h. Northwest |

24.2 How fast were you moving? _____ miles per hour.

24.3 Did you stop at any time while you were looking at the object?

(Circle One) Yes No

25. Did you observe the object through any of the following?

- | | | | | | |
|-----------------|-----|-------------------------------------|---------------|-----|-------------------------------------|
| a. Eyeglasses | Yes | ☒ No | e. Binoculars | Yes | ☒ No |

Mr [REDACTED] called at 2250, 16 May 1964. He stated that he had heard a report on a local radio station about lights in the sky. He seemed to think that the Air Force would not take him seriously. He began to answer my questions, when he said someone was at the door and would have to hang up, but would call back in a few minutes. He failed to do this. His son also stated that he saw something in the sky.
