Dear Section 40

Thank you for your letter of 9 November 2009 about the 'UFO' sighting at Rendelsham forest in 1980. This has been considered as a request for information in accordance with the Freedom of Information Act 2000 (FOIA).

As you mentioned in your letter the Ministry of Defence released the file and transferred it to The National Archive. You can contact them at the following address: The National Archives, Kew, Richmond, Surrey, TW9 4DU. Alternatively, you can visit their website at:

<http://www.nationalarchives.gov.uk>.

I hope this is helpful.

If you are unhappy with this response or you wish to complain about any aspect of the handling of this request, then you should contact me in the first instance. If informal resolution is not possible and you are still dissatisfied then you may apply for an independent internal review by contacting the Director of Information Exploitation, 6th Floor, MOD Main Building, Whitehall, SW1A 2HB (e-mail InfoXD@mod.uk). Please note that any request for an internal review must be made within 40 days of the date on which the attempt to reach informal resolution has come to an end.

INVESTORS IN PEOPLE

● If you remain unhappy following an internal review, you may wish to take your complaint to the Information Commissioner under the provisions of Section 50 of the Freedom of Information Act. Please note that the Information Commissioner will not investigate your case until the internal review process has been completed. Further details of the role and powers of the Information Commissioner can be found on the Commissioner's website,

FREEDOM OF INFORMATION CORRESPONDENCE - TO BE GIVEN A HIGH PRIORITY

Dear Focal Point(s)

The Freedom of Information (FOI) request for information (RFI) below has been placed with you, but not confirmed on the Access to Information Toolkit (AIT). [insert details here, of which area should answer which part of the RFI, if it has been broken into different sections]

Please acknowledge within two working days that you are the appropriate area to respond, or lead, and we will confirm this on AIT. You should respond to the requester within twenty working days of the date the request was made. If you consider another area is more appropriate to respond or lead, then please approach them, also within two working days. Please engage with the FOI Helpdesk at all times when you are looking to place a request elsewhere. The FOI Helpdesk will be pleased to assist during this process.

This request will be automatically allocated to your area, on AIT, after three working days, if the FOI Helpdesk receives no receipt or evidence of action to place the request elsewhere.

If you are copied into this email, you may be a relevant contributor to the response and you should liaise with the lead respondent.

This process is set out to maximise the amount of time to find information and respond, when this request has been placed with the appropriate subject matter expert.

If the FOI request has been submitted by the media, or if you are concerned about potential media interest in the FOI response please contact MOD Press Office prior to release. Whether the potential for interest is new

18/11/2009

or existing, please ensure that press officers have sight of the release before sending, with appropriate and realistic deadlines for when you need a reply from them. Please send your draft and any supporting information to Directorate Media and Communications (DMC) addressed to **Section 40**

To whom it may concern

The Rendlesham Forest case is undoubtedly one of the best documented and most significant military encounters with a UFO. It is also very credible incident. The incident spanned four days in 1980. Rendlesham Forest is a large pine forest, east of Ipswich, in Suffolk, England. Nearby are the twin NATO air bases, RAF Bentwaters and RAF Woodbridge; at the time both bases were being leased to the United States Air Force. Several UFO incidents, including multiple-witness sightings by military personnel, ground traces, and radioactive anomalies were reported from Rendlesham forest. According to USAF security patrolmen on duty, "the object was described as being metallic in appearance and triangular in shape, approx. 2-3 meters across the base... it illuminated the entire forest with a white light, and had a pulsing red light on top and a bank(s) of blue lights underneath." In November, 2002, the British Ministry of Defense released the "Rendlesham File" of documents related to and confirming the Rendlesham Forest incident.

My Name is Section 40 I was wondering if your agency has any records pertaining to the "Rendlesham Forest Incident". I put the paragraph about the case so you know what I am referring to so it would be easy for your agency to know what exactly what I am requesting. If your agency does find any records pertaining to my request please send me the necessary fee papers that I need if any records are to be located.

24 November 2009

Dear Section 40

Thank you for your email of 9 November about assessments made by the Ministry of Defence in the last five years regarding: a) the likelihood of, or b) provisions for an alien invasion of the United Kingdom. This has been considered as a request for information in accordance with the Freedom of Information Act 2000 (FOIA).

MOD has not made any assessment of the likelihood of, or provisions for, an alien invasion of the United Kingdom in the last five years.

It may be helpful if I explain that the MOD examines any reports of 'unidentified flying objects' it receives solely to establish whether what was seen might have some defence significance; namely, whether there is any evidence that the United Kingdom's airspace might have been compromised by hostile or unauthorised air activity.

Unless there is evidence of a potential threat to the United Kingdom from an external source, and to date no UFO report has revealed such evidence, we do not attempt to identify the precise nature of each sighting reported to us. We believe that rational explanations, such as aircraft lights or natural phenomena, could be found for them if resources were diverted for this purpose, but it is not the function of the MOD to provide this kind of aerial identification service. It would be an inappropriate use of defence resources if we were to do so.

The MOD does not have any expertise or role in respect of 'UFO/flying saucer' matters or the question of the existence or otherwise of extraterrestrial life forms, about which it remains totally open-minded. I should add that to date, the MOD knows of no evidence which substantiates the existence of these alleged phenomena.

Dear Section 40

Thank you for your e-mail to CIO-FOI@mod.uk regarding your request for all UFO sightings over the last decade. This has been considered as a request for information in accordance with the Freedom of Information Act 2000 (FOIA).

Details of UFO sightings reported to the MOD for the period 1998-2008 are available for viewing on the MOD website www.mod.uk by searching under "UFO Reports". Reports for 2009 will be published at the end of the year.

Therefore, as provided by exemption s.22 (Information intended by future publication) of the Freedom of Information Act 2000, the MOD is not obliged to comply with the part of your request relating to records from 2009. Section 22 is a qualified exemption, meaning that the MOD must assess the balance of public interest in release of the information.

Whilst there is undoubtedly public interest in this information being released to the public as it will enable them to have a more informed view of the MOD's role in UFO matters, there is no overriding reason why the public should have the information immediately. Indeed it could be argued, that by releasing files and the information they contain in chronological order, the public will be able to follow the role of the MOD in a more logical and orderly fashion, and to view actions in their correct historical perspective.

It is part of effective administration of government that the publication of information is planned and managed within the department responsible. The release of this information will undermine this release process, and delay the release of other files (which other members of the public may be waiting for) as work on them would necessarily have to be put off.

It is for these reasons that we do not believe it would be in the public interest to release this information at the moment.

If you are not satisfied with this response or you wish to complain about any aspect of the handling of your request, then you should contact me in the first instance. If informal resolution is not possible and you are still dissatisfied then you may apply for an independent internal review by contacting the Head of Corporate Information, 6th Floor, MOD Main Building, Whitehall, SW1A 2HB (e-mail CIO-FOI-IR@mod.uk). Please note that any request for an internal

review must be made within 40 working days of the date on which the attempt to reach informal resolution has come to an end.

If you remain dissatisfied following an internal review, you may take your complaint to the Information Commissioner under the provisions of Section 50 of the Freedom of Information Act. Please note that the Information Commissioner will not investigate your case until the MOD internal review process has been completed. All sightings for the last decade	22	Information intended for future publication	Y

The following comments will be made to the applicant

Thank you for your e-mail to CIO-FOI@mod.uk regarding your request for all UFO sightings over the last decade. This has been considered as a request for information in accordance with the Freedom of Information Act 2000 (FOIA).

Details of UFO sightings reported to the MOD for the 1998-2008 are available for viewing on the MOD website www.mod.uk by searching under "UFO Reports". Reports for 2009 will be published at the end of the year.

Therefore, as provided by exemption s.22 (Information intended by future publication) of the Freedom of Information Act 2000, the MOD is not obliged to comply with this part of your request. Section 22 is a qualified exemption, meaning that the MOD must assess the balance of public interest in release of the information.

While there is undoubtedly public interest in this information being released to the public as it will enable them to have a more informed view of the MOD's role in UFO matters, there is no overriding reason why the public should have the information immediately. Indeed it could be argued, that by releasing files and the information they contain in chronological order, the public will be able to follow the role of the MOD in a more logical and orderly fashion, and to view actions in their correct historical perspective.

¹ If Yes, please attach details of PIT.

It is part of effective administration of government that the publication of information is planned and managed within the department responsible. The release of this information will undermine this release process, and delay the release of other files (which other members of the public may be waiting for) as work on them would necessarily have to be put off.

It is for these reasons that we do not believe it would be in the public interest to release this information at the moment.

I hereby give authorisation for the use of the aforementioned exemptions and/or exceptions in this case to withhold information from the Applicant:

Dear Section 40

Thank you for your e-mail to CIO-FOI@mod.uk regarding your request for all UFO sightings over the last decade. This has been considered as a request for information in accordance with the Freedom of Information Act 2000 (FOIA).

Details of UFO sightings reported to the MOD for the period 1998-2008 are available for viewing on the MOD website www.mod.uk by searching under "UFO Reports". Reports for 2009 will be published at the end of the year.

Therefore, as provided by exemption s.22 (Information intended by future publication) of the Freedom of Information Act 2000, the MOD is not obliged to comply with the part of your request relating to records from 2009. Section 22 is a qualified exemption, meaning that the MOD must assess the balance of public interest in release of the information.

Whilst there is undoubtedly public interest in this information being released to the public as it will enable them to have a more informed view of the MOD's role in UFO matters, there is no overriding reason why the public should have the information immediately. If you are not satisfied with this response or you wish to complain about any aspect of the handling of your request, then you should contact me in the first instance. If informal resolution is not possible and you are still dissatisfied then you may apply for an independent internal review by contacting the Head of Corporate Information, 6th Floor, MOD Main Building, Whitehall, SW1A 2HB (e-mail CIO-FOI-IR@mod.uk). Please note that any request for an internal

review must be made within 40 working days of the date on which the attempt to reach informal resolution has come to an end.

If you remain dissatisfied following an internal review, you may take your complaint to the Information Commissioner under the provisions of Section 50 of the Freedom of Information Act. Please note that the Information Commissioner will not investigate your case until the MOD internal review process has been completed. FREEDOM OF INFORMATION CORRESPONDENCE - TO BE GIVEN A HIGH PRIORITY

Dear Focal Point(s)

The Freedom of Information (FOI) request for information (RFI) below has been placed with you, but not confirmed on the Access to Information Toolkit (AIT).

Can you please look at this FOI request. Is it one for your area? Thank-you.

Please acknowledge within two working days that you are the appropriate area to respond or lead, and we will transfer the case to the AIT group administrator who must accept the case on AIT within 1 day. You should respond to the requester within twenty working days of the date the request was made.

If you consider another area is more appropriate to respond or lead, then please contact the FOI Helpdesk immediately. Please engage with the FOI Helpdesk at all times when you are looking to place a request elsewhere.

This request will be automatically allocated to your area, on AIT, after three working days, if the FOI Helpdesk receives no receipt or evidence of action to place the request elsewhere. The FOI Helpdesk will be pleased to assist during this process.

If you are copied into this email, you may be a relevant contributor to the response and you should liaise with the lead respondent.

This process is set out to maximise the amount of time to find information and respond, when this request has been placed with the appropriate subject matter expert.

If the FOI request has been submitted by the media, or if you are concerned about potential media interest in the FOI response please contact MOD Press Office prior to release. Whether the potential for interest is new or existing, please ensure that press officers have sight of the release before sending, with appropriate and realistic deadlines for when you need a reply from them. Please send your draft and any supporting information to Directorate Media and Communications (DMC) addressed to **Section 40**

6 August 2009

Dear Section 40

Thank you for your Freedom of Information request of 10 July 2009 asking for details of UFO sightings in Northern Ireland between 1959 and 2009.

With regard to sightings for the period 1959 to 1992, what records remain are available for Public Viewing at The National Archives. You may wish to note that only a few files survived before 1967 as MoD files were routinely destroyed after 5 years until then. The National Archives can be contacted at Ruskin Avenue, Richmond, Kew, Surrey TW9 4DU or telephone, 020 8876 3444. The National Archives also have a website giving information about the records they hold and how to access them. This can be found on the internet at www.nationalarchives.gov.uk.

Details of UFO sightings reported to the MoD for the period 1997-2008 are available for viewing on the MoD website www.mod.uk by searching under "UFO Reports". I attach a copy of the only sighting reported to us for Northern Ireland for 2009. You will note that names and the address of the witness have been withheld under s.40 (Personal Information) of the Freedom of Information Act 2000.

UFO files covering the residual period of your request i.e. 1993-96, are due for transfer to The National Archives by the end of this year as part of a three year programme to release UFO files from the Directorate of Air Staff and the Defence Intelligence Staff covering the period from the late 1970's to 2007.

Therefore, as provided by exemption s.22 (Information intended for future publication) of the Freedom of Information Act 2000, the MoD is not obliged to comply with this part of your request.

This is not the end of the matter, of course; section 22 is a qualified exemption, meaning that the MOD must assess the balance of public interest in release of the information.

Whilst there is undoubtedly public interest in this information being released to the public as it will enable them to have a more informed view of the MoD's role in UFO matters, there is no

overriding reason why the public should have the information immediately. Indeed it could be argued, that by releasing files and the information they contain in chronological order, the public will be able to follow the role of the MoD in a more logical and orderly fashion, and to view actions in their correct historical perspective.

It is part of effective administration of government that the publication of information is planned and managed within the department responsible. The release of this information will undermine this release process, and delay the release of other files (which other members of the public may be waiting for) as work on them would necessarily have to be put off.

It is for these reasons that we do not believe it would be in the public interest to release this information at this moment.

If you are not satisfied with this response or you wish to complain about any aspect of the handling of your request, then you should contact me in the first instance. If informal resolution is not possible and you are still dissatisfied then you may apply for an independent internal review by contacting the Head of Corporate Information, 6th Floor, MOD Main Building, Whitehall, SW1A 2HB (e-mail CIO-FOI-IR@mod.uk). Please note that any request for an internal review must be made within 40 working days of the date on which the attempt to reach informal resolution has come to an end.

If you remain dissatisfied following an internal review, you may take your complaint to the Information Commissioner under the provisions of Section 50 of the Freedom of Information Act. Please note that the Information Commissioner will not investigate your case until the MOD internal review process has been completed. Further details of the role and powers of the Information Commissioner can be found on the Commissioner's website, <http://www.ico.gov.uk>.

The Constitution Unit, a research body at University College London, is carrying out an independent evaluative study of the Freedom of Information Act 2000 in co-operation with a number of public authorities, including the Ministry of Defence. An important part of the evaluation process is gathering the experiences and opinions of FOI requesters like you. Any information you provide will only be seen by the Constitution Unit and will be handled in accordance with its privacy policy explained in the survey. The Ministry of Defence will only see the published results: no individual responses will be visible to us and your participation will have no effect on your future dealings with the Ministry.

If you would like to take part in this study, please visit the following link to be taken directly to the survey: <http://tinyurl.com/6prff8>. Or, if you prefer, contact Ben Worthy at b.worthy@ucl.ac.uk or on **Section 40** to ask more about the study.

If you have filled this survey out before, we invite you to fill it out again in light of the recent response to your request.

Dear Section 40

Thank you for your UFO sighting report and your Freedom of Information request of 21 August 2009 asking for details of recent UFO reports. Additionally, you mentioned that you were interested in sightings prior to 1967.

Firstly, it may be helpful if I explain that the Ministry of Defence (MoD) examines any reports of 'unidentified flying objects' it receives, solely to establish whether what was seen might have some defence significance; namely, whether there is any evidence that the United Kingdom's airspace might have been compromised by hostile or unauthorised air activity.

Unless there is evidence of a potential threat to the United Kingdom from an external source, and to date no UFO report has revealed such evidence, we do not attempt to identify the precise nature of each sighting reported to us. We believe that rational explanations, such as aircraft lights or natural phenomena, could be found for them if resources were diverted for this purpose, but it is not the function of the MoD to provide this kind of aerial identification service. It would be an inappropriate use of defence resources if we were to do so.

The MoD does not have any expertise or role in respect of 'UFO/flying saucer' matters or the question of the existence or otherwise of extraterrestrial life forms, about which it remains totally open-minded. I should add that to date, the MoD knows of no evidence which substantiates the existence of these alleged phenomena.

I attach details of UFO sightings reported to the MoD for January to August 2009.

Details of UFO sightings reported to the MoD for the period 1997-2008 are available for viewing on the MoD website www.mod.uk by searching under "UFO Reports".

You might also be interested to know that the MOD has already released a great deal of information about UFOs which is available for public viewing. MOD files were routinely destroyed after being held for five years until 1967, when they were generally preserved for The National Archives. A few have survived before 1967 and these together with records up to 1992 are now available for public viewing. They can be contacted at Ruskin Avenue, Richmond, Kew, Surrey TW9 4DU or telephone, 020 8876 3444. The National Archives also have a website giving information about the records they hold and how to access them. This can be found on the internet at www.nationalarchives.gov.uk.

Additionally, we are part way through a three year programme to release UFO files from the

Directorate of Air Staff and the Defence Intelligence Staff covering the period from the late 1970's to 2007. You may wish to consider contacting The National Archives press office for details of when the next release is due.

I hope this is helpful.

If you are not satisfied with this response or you wish to complain about any aspect of the handling of your request, then you should contact me in the first instance. If informal resolution is not possible and you are still dissatisfied then you may apply for an independent internal review by contacting the Head of Corporate Information, 6th Floor, MOD Main Building, Whitehall, SW1A 2HB (e-mail CIO-XD@mod.uk). Please note that any request for an internal review must be made within 40 working days of the date on which the attempt to reach informal resolution has come to an end.

If you remain dissatisfied following an internal review, you may take your complaint to the Information Commissioner under the provisions of Section 50 of the Freedom of Information Act. Please note that the Information Commissioner will not investigate your case until the MOD internal review process has been completed. Further details of the role and powers of the Information Commissioner can be found on the Commissioner's website, <http://www.ico.gov.uk>.

Case Number: 10-07-2009-163453-001

Expiry Date: 6 Aug 09

The Applicant has made the following request for information:

Details of UFO sightings for Northern Ireland for the period 1959-2009. Include the date, location and description of the UFO.

Background

The files containing details of UFO files for the period 1959-92 are, if they exist, already available at The National Archives.

Files for the remaining period (1993-1996) will be passed to The National Archives by the end of this year.

Details of sightings for 1997-2008 are already available via the MoD website. We have received only one sighting for Northern Ireland in 2009 which will be released with name and the address redacted.

Dear Section 40

Thank you for your e-mail of the 19 October 2009 requesting information about a possible UFO sighting on 25 August 2009 in Dunblane, near Stirling at 2105hrs and if there had been airborne activity in the area on that date and time. This has been considered as a request for information in accordance with the Freedom of Information Act 2000 (FOIA).

I have examined our records and can find no report of a UFO sighting in the area on the date and time specified. The MOD has no central record of aircraft flying in the area on the date and time in question. In order to answer your question about airborne activity accurately, we would need to check with every flying station in the UK whether they had any aircraft in the area, the cost of which would exceed the compliance limit, set at £600, under Section 12 of the Freedom of Information Act. This equates to one individual working for three and a half days to locate, retrieve and extract the required information. Under the terms of Section 12 of the FOI Act, we are therefore not obliged to comply with this element of your request.

It may be helpful if I explain that the MOD examines any reports of 'unidentified flying objects' it receives solely to establish whether what was seen might have some defence significance; namely, whether there is any evidence that the United Kingdom's airspace might have been compromised by hostile or unauthorised air activity.

Unless there is evidence of a potential threat to the United Kingdom from an external source, and to date no UFO report has revealed such evidence, we do not attempt to identify the precise nature of each sighting reported to us. We believe that rational explanations, such as aircraft lights or natural phenomena, could be found for them if resources were diverted for this purpose, but it is not the function of the MOD to provide this kind of aerial identification service. It would be an inappropriate use of defence resources if we were to do so.

INVESTORS IN PEOPLE

The MOD does not have any expertise or role in respect of 'UFO/flying saucer' matters or the question of the existence or otherwise of extraterrestrial life forms, about which it remains totally open-minded. I should add that to date, the MOD knows of no evidence which substantiates the existence of these alleged phenomena.

If you are not satisfied with this response or you wish to complain about any aspect of the handling of your request, then you should contact me in the first instance. If informal resolution is not possible and you are still dissatisfied then you may apply for an independent internal review by contacting the Head of Corporate Information, 6th Floor, MOD Main Building, Whitehall, SW1A 2HB (e-mail CIO-FOI-IR@mod.uk). Please note that any request for an internal review must be made within 40 working days of the date on which the attempt to reach informal resolution has come to an end.

If you remain dissatisfied following an internal review, you may take your complaint to the Information Commissioner under the provisions of Section 50 of the Freedom of Information Act. Please note that the Information Commissioner will not investigate your case until the MOD internal review process has been completed. Further details of the role and powers of the Information Commissioner can be found on the Commissioner's website, <http://www.ico.gov.uk>.

I hope that this information is useful.

Yours sincerely

FREEDOM OF INFORMATION CORRESPONDENCE - TO BE GIVEN A HIGH PRIORITY

Dear Focal Point(s)

The Freedom of Information (FOI) request for information (RFI) below has been placed with you, but not confirmed on the Access to Information Toolkit (AIT).

Can you please look at this FOI request. Is it one for your area? Thank-you.

Please acknowledge within two working days that you are the appropriate area to respond or lead, and we will transfer the case to the AIT group administrator who must accept the case on AIT within 1 day. You should respond to the requester within twenty working days of the date the request was made.

If you consider another area is more appropriate to respond or lead, then please contact the FOI Helpdesk immediately. Please engage with the FOI Helpdesk at all times when you are looking to place a request elsewhere.

This request will be automatically allocated to your area, on AIT, after three working days, if the FOI Helpdesk receives no receipt or evidence of action to place the request elsewhere. The FOI Helpdesk will be pleased to assist during this process.

If you are copied into this email, you may be a relevant contributor to the response and you should liaise with the lead respondent.

This process is set out to maximise the amount of time to find information and respond, when this request has been placed with the appropriate subject matter expert.

If the FOI request has been submitted by the media, or if you are concerned about potential media interest in the FOI response please contact MOD Press Office prior to release. Whether the potential for interest is new or existing, please ensure that press officers have sight of the release before sending, with appropriate and realistic deadlines for when you need a reply from them. Please send your draft and any supporting information to Directorate Media and Communications (DMC) addressed to Section 40

Information request: I am a cerified UFO Field Investigator for MUFON (Mutual UFO Research Network) and am investigating a possible UFO sighting case which was witnessed a resident in Dunblane, near Stirling. \par This occurred on 25th August this year at 21.05 hours. \par He described it as a disc-shaped with white lights flying at VERY low altitude-only 20 feet up and moving towards the south. He then says a few minutes later a stealth bomber flew by heading in the same direction. \par Has there been any other such reports received by yourself on this, and do you know if there was any airborne activity in that area on that date and time?

11 November 2009

Dear Section 40

Thank you for your e-mail of the 16 October 2009 requesting information about military aircraft movements on 1 January 2009 at 0018GMT and whether military aircraft fly with headlights on. This has been considered as a request for information in accordance with the Freedom of Information Act 2000 (FOIA).

The MOD has no central record of aircraft flying in the area on the date and time in question. In order to answer your question about airborne activity accurately, we would need to check with every flying station in the UK whether they had any aircraft in the area, the cost of which would exceed the compliance limit, set at £600, under Section 12 of the Freedom of Information Act. This equates to one individual working for three and a half days to locate, retrieve and extract the required information. Under the terms of Section 12 of the FOI Act, we are therefore not obliged to comply with this element of your request.

Military aircraft have landing and navigation lights. Open source information on aircraft lighting systems is available from a variety of outlets, such as the internet or reference books in public libraries. Basic technical details of aircraft can be found in Jane's 'All the World's Aircraft', which may be available from your local public library.

If your local library lacks the information, you may wish to make use of the internet. I did an internet search which indicated that aircraft navigation lights are placed in a way similar to that of marine vessels, with a red navigation light located on the left wingtip leading edge and a green light on the right wingtip leading edge. A white navigation light is as far as possible to the edge of the tail or each wing tip. High-intensity strobe lights are located on the aircraft to aid in collision avoidance. Almost all modern aircraft are equipped with landing lights if they are intended and approved for night-time operations. Landing lights are usually of very high intensity because of the considerable distance that may separate an aircraft from terrain or

INVESTORS IN PEOPLE

obstacles; the landing lights of large aircraft can easily be seen by observers from several miles away.

If you are not satisfied with this response or you wish to complain about any aspect of the handling of your request, then you should contact me in the first instance. If informal resolution is not possible and you are still dissatisfied then you may apply for an independent internal review by contacting the Head of Corporate Information, 6th Floor, MOD Main Building, Whitehall, SW1A 2HB (e-mail CIO-FOI-IR@mod.uk). Please note that any request for an internal review must be made within 40 working days of the date on which the attempt to reach informal resolution has come to an end.

If you remain dissatisfied following an internal review, you may take your complaint to the Information Commissioner under the provisions of Section 50 of the Freedom of Information Act. Please note that the Information Commissioner will not investigate your case until the MOD internal review process has been completed. Further details of the role and powers of the Information Commissioner can be found on the Commissioner's website, <http://www.ico.gov.uk>.

I hope that this information is useful.

Yours sincerely

Dear [Section 40]

Thank you for your email, but unfortunately we are unable to help this time. The radar data that we can access only allows us to view incidents that are below the line of latitude 56N (which runs across the country just above Edinburgh). I would recommend contacting ScATCC D&D, where Flt Lt [Section 40] and Sgt [Section 40] do radar replays as an addition to their normal work. The number we have is [Section 40] or email [Section 40] and [Section 40]. They may be able to help, but I highly doubt they will be able to see anything flying at 20ft.

Sorry we cant be of more help this time around,

Regards,

Subject: Aircraft Activity

Dear RAC

Air Command, RAF Business Secretariat has received two separate Freedom of Information requests (below). Both are in relation to UFOs but also ask about aircraft activity. I would be grateful if you can provide a radar trace by COP 5 November. Many thanks for your help.

I am a cerified UFO Field Investigator for MUFON (Mutual UFO Research Network) and am investigating a possible UFO sighting case which was witnessed a resident in Dunblane, near Stirling. \par This occurred on 25th August this year at 21.05 hours. \par He described it as a disc-shaped with white lights flying at VERY low altitude-only 20 feet up and moving towards the south. He then says a few minutes later a stealth bomber flew by heading in the same direction. \par Has there been any other such reports received by yourself on this, and do you know if there was any airborne activity in that area on that date and time?

Investigating a report of unusual lights at 0018 GMT on 01 Jan 09 as seen south from Crieff, I need to know if there were any military aircraft movements at that time that could account for the lights. Do military aircraft fly with headlights on?

Dear Section 40

Thank you for your emails of 5 October. They have been considered as a request for information in accordance with the Freedom of Information Act 2000 (FOI). You asked for information regarding the amount of serving members of the Armed Forces who have reported UFO's or alien activity over the last 12 months; where the incidents took place; what investigations took place and which were passed onto other government agencies or related civilian agencies.

Firstly, it may be helpful if I explain that the MOD examines any reports of 'unidentified flying objects' it receives solely to establish whether what was seen might have some defence significance; namely, whether there is any evidence that the United Kingdom's airspace might have been compromised by hostile or unauthorised air activity.

Unless there is evidence of a potential threat to the United Kingdom from an external source, and to date no UFO report has revealed such evidence, we do not attempt to identify the precise nature of each sighting reported to us. We believe that rational explanations, such as aircraft lights or natural phenomena, could be found for them if resources were diverted for this purpose, but it is not the function of the MOD to provide this kind of aerial identification service. It would be an inappropriate use of defence resources if we were to do so.

The MOD does not have any expertise or role in respect of 'UFO/flying saucer' matters or the question of the existence or otherwise of extraterrestrial life forms, about which it remains totally open-minded. I should add that to date, the MOD knows of no evidence which substantiates the existence of these alleged phenomena.

There is no requirement for individuals who correspond with the MOD, including those who report sightings, to provide details of their employment. I can confirm, however, that in the last 12 months (1

October 2008 to 30 September 2009) from the records that MOD holds on UFO sightings reported to the Department, there have been two sightings by people who identified themselves as serving members of the armed forces: one sighting at Shepton Mallet reported by a Royal Navy individual and one at Northolt reported by a Royal Air Force individual. Neither of these sightings prompted further investigation or was passed to other Government or civilian agencies.

Yours sincerely

FREEDOM OF INFORMATION CORRESPONDENCE - TO BE GIVEN A HIGH PRIORITY

Dear Focal Point

The Freedom of Information (FOI) request for information (RFI) below has been placed with you, but not confirmed on the Access to Information Toolkit (AIT). [insert details here, of which area should answer which part of the RFI, if it has been broken into different sections]

Please acknowledge within two working days that you are the appropriate area to respond, or lead, and we will confirm this on AIT. You should respond to the requester within twenty working days of the date the request was made. If you consider another area is more appropriate to respond or lead, then please approach them, also within two working days. Please engage with the FOI Helpdesk at all times when you are looking to place a request elsewhere. The FOI Helpdesk will be pleased to assist during this process.

This request will be automatically allocated to your area, on AIT, after three working days, if the FOI Helpdesk receives no receipt or evidence of action to place the request elsewhere.

If you are copied into this email, you may be a relevant contributor to the response and you should liaise with the lead respondent.

This process is set out to maximise the amount of time to find information and respond, when this request has been placed with the appropriate subject matter expert.

If the FOI request has been submitted by the media, or if you are concerned about potential media interest in the FOI response please contact MOD Press

Office prior to release. Whether the potential for interest is new or existing, please ensure that press officers have sight of the release before sending, with appropriate and realistic deadlines for when you need a reply from them. Please send your draft and any supporting information to Directorate Media and Communications (DMC) addressed to **Section 40** **Section 40** @mod.uk Tel: **Section 40**

Lastly, please see further headline guidance on FOI correspondence at the attached, or detailed guidance (including model answers) at <http://defenceintranet.diiweb.r.mil.uk/DefenceIntranet/Admin/RespondToRequestsForInformation/>.

If you have any concerns, or require any assistance with FOI, please contact Info-Access Operations, we are here to help.

Please acknowledge within two working days that you are the appropriate area to respond, or lead, and we will confirm this on AIT. You should respond to the requester within twenty working days of the date the request was made. If you consider another area is more appropriate to respond or lead, then please approach

them, also within two working days. Please engage with the FOI Helpdesk at all times when you are looking to place a request elsewhere. The FOI Helpdesk will be pleased to assist during this process.

This request will be automatically allocated to your area, on AIT, after three working days, if the FOI Helpdesk receives no receipt or evidence of action to place the request elsewhere.

If you are copied into this email, you may be a relevant contributor to the response and you should liaise with the lead respondent.

This process is set out to maximise the amount of time to find information and respond, when this request has been placed with the appropriate subject matter expert.

If the FOI request has been submitted by the media, or if you are concerned about potential media interest in the FOI response please contact MOD Press Office prior to release. Whether the potential for interest is new or existing, please ensure that press officers have sight of the release before sending, with appropriate and realistic deadlines for when you need a reply from them. Please send your draft and any supporting information to Directorate Media and Communications (DMC) addressed to **Section 40** **Section 40** @mod.uk Tel: **Section 40**

Lastly, please see further headline guidance on FOI correspondence at the attached, or detailed guidance (including model answers) at <http://defenceintranet.diiweb.r.mil.uk/DefenceIntranet/Admin/RespondToRequestsForInformation/>.

If you have any concerns, or require any assistance with FOI, please contact Info-Access Operations, we are here to help.

Dear Sir or Madam,

Dear Sir or Madam,

Please could you supply information regarding the amount of serving members of the Royal Navy who have reported UFO's or alien activity over the last 12 months.

Also please include where the incidents took place, what investigations took place and which were passed onto other government agencies or related civilian agencies.

Many thanks for your time.

Yours faithfully,

Dear Section 40

Thank you for your letter of the 15 October 2009 requesting information on the report of a UFO sighting in the West Lothian area. This has been considered as a request for information in accordance with the Freedom of Information Act 2000 (FOIA).

I have examined our records and can find no report of a UFO sighting in the area of West Lothian on Monday 5 October.

If you are not satisfied with this response or you wish to complain about any aspect of the handling of your request, then you should contact me in the first instance. If informal resolution is not possible and you are still dissatisfied then you may apply for an independent internal review by contacting the Head of Corporate Information, 6th Floor, MOD Main Building, Whitehall, SW1A 2HB (e-mail CIO-FOI-IR@mod.uk). Please note that any request for an internal review must be made within 40 working days of the date on which the attempt to reach informal resolution has come to an end.

If you remain dissatisfied following an internal review, you may take your complaint to the Information Commissioner under the provisions of Section 50 of the Freedom of Information Act. Please note that the Information Commissioner will not investigate your case until the MOD internal review process has been completed. Further details of the role and powers of the Information Commissioner can be found on the Commissioner's website, <http://www.ico.gov.uk>.

I hope that this information is useful

Dear **Section 40**

Thank you for your two Freedom of Information requests of 22 January 2009 asking about a UFO sighting on the Isle of Lewis on January and near Bridgend on 3 January 2009. You wished to know if there was any military activity in these areas at the time of the sightings and whether we had received any similar reports. Please take this response to cover both requests.

The Ministry of Defence does not keep a central record of all military aircraft activity and in order to accurately state whether there was any military activity in the area, we would need to contact some thirty flying stations across the UK, the cost which would exceed the £600 limit set for compliance with the Freedom of Information Act and, as provided by Section 12 of the Act, the Ministry of Defence is not obliged to comply with your request.

Whilst we do have a centralised record of aircraft entering the UK Low Flying System, this system was closed over the period in question and I would therefore very much doubt that the sightings were caused by military activity.

No other similar sightings were made for the areas in question over this period.

I am sorry I can not be more helpful.

If you are unhappy with this response or you wish to complain about any aspect of the handling of this request, then you should contact me in the first instance. If informal resolution is not possible and you are still dissatisfied then you may apply for an independent internal review by contacting the Director of Information Exploitation, 6th Floor, MOD Main Building, Whitehall, SW1A 2HB (e-mail InfoXD@mod.uk). Please note that any request for an internal review must be made within 40 days of the date on which the attempt to reach informal resolution has come to an end.

Dear Section 40

Our Ref:

27 August 2009

Thank you for your Freedom of Information (FOI) request of 28 Jul 2009 asking whether there had been any military activity over Edinburgh at about 00:36 hours on Sunday 20th July 2009 and whether any reports that lights had been seen on that date over Edinburgh had been received.

The MoD has no central record of aircraft flying over Edinburgh on the date and time in question. In order for us to accurately answer your question, we would need to check with every flying station in the UK whether they had any aircraft in the area, the cost of which would exceed the £600 limit set for compliance with the Freedom of Information Act. This represents the cost of one person spending three and a half working days in determining whether the Department holds the information, and locating, retrieving and extracting the information. Under the terms of Section 12 of the FOI Act, this means that we are not obliged to comply with this element of your request at this time.

However, I can confirm that we have received no other reports of UFO sightings over Edinburgh for 19 or 20th July 2009.

It is of course possible that military aircraft may have been transiting the area, and that Edinburgh's civilian Air Traffic Control may have some record.

If you are not satisfied with this response or you wish to complain about any aspect of the handling of your request, then you should contact me in the first instance. If informal resolution is not possible and you are still dissatisfied then you may apply for an independent internal review by contacting the Head of Corporate Information, 6th Floor, MOD Main Building, Whitehall, SW1A 2HB (e-mail CIO-FOI-IR@mod.uk). Dear Sirs,

A lady who lives in Glenmavis near Airdrie Scotland contacted me regarding strange lights over the area on Monday 5th October between 8.30pm and 9pm.

These lights appeared in a group of three and looked like they were on fire before changing to a white colour.

Could you please let me know if anyone reported seeing these lights on that date and time.

Thanking you in anticipation.

Subject: 20090713 FOI 09-07-2009-144456-053 UFO Sightings1998/1999-u

Dear Section 40

Thank you for your e-mail of 7 July 2009 asking for all Northern Ireland UFO sightings in 1998/1999.

Firstly, it may be helpful if I explain that the Ministry of Defence (MoD) examines any reports of 'unidentified flying objects' it receives solely to establish whether what was seen might have some defence significance; namely, whether there is any evidence that the United Kingdom's airspace might have been compromised by hostile or unauthorised air activity.

Unless there is evidence of a potential threat to the United Kingdom from an external source, and to date no UFO report has revealed such evidence, we do not attempt to identify the precise nature of each sighting reported to us. We believe that rational explanations, such as aircraft lights or natural phenomena, could be found for them if resources were diverted for this purpose, but it is not the function of the MoD to provide this kind of aerial identification service. It would be an inappropriate use of defence resources if we were to do so.

27/10/2009

The MoD does not have any expertise or role in respect of 'UFO/flying saucer' matters or the question of the existence or otherwise of extraterrestrial life forms, about which it remains totally open-minded. I should add that to date, the MoD knows of no evidence which substantiates the existence of these alleged phenomena.

Details of UFO sightings for the period 1997-2008 can be found on the MoD website www.mod.uk by searching under "*UFO Reports*". For the current year until the 30 June, the MoD has recorded 240 reports relating to 2009, a further 8 relating to 2008 which were not received in time to appear on the website and 1 for 2007. Details of sightings for 2009 will be placed on the MoD website in early 2010.

I hope this is helpful.

DESCRIPTION

A huge glowing orange ball. It hovered over Bloomfield park in a strange way, suspended in air. It moved up and down and then glided diagonally into the sky.

Two bright lights/objects moving through the sky

Object that moved quickly through the sky. He has photographs (On 3 Days)

Object that moved quickly through the sky. He has photographs (On 3 Days)

Object that moved quickly through the sky. He has photographs (On 3 Days)

One white light to the south east that flashes red, green and an off yellow at about 8-10000ft. Another across central London at 10-15000ft with the same colours. Objects are identical and 3-4 miles apart on the approach path to Heathrow or London

It was the flashing of a huge object with one normal and two green lights. It was flying low. Only saw it for 4 seconds than it vanished from site.

An object with a white and alternating red lights at an angle. Came from South East London towards Canary Wharf. It stopped in mid air and an alternating sequence of red lights flashed at 180 degrees. Lights switched side instantly.

A bright orange light, the size of a helicopter. It looked like a flame or a flare but made no sound. It was moving very slowly.

Three objects in the sky. They were circling and dipping in and out of the clouds. They could have been light sources or just reflecting light. A possible tail of light at a slight angle away from the direction of travel on each of the objects

A big ball of fire, like a star. It decreased in size over two minutes.

Two bright lights heading towards the city. Like a white octopus shaped kite. It was like they were propelled but travelling on their own.

A spherical object with a red flashing light underneath. It was stationary in the sky for 10 minutes and then just faded away. It had made no movement at all.

A long shaped vehicle with a red light at the front and 2 gold lights eitherside. Hovered above the house and then moved off to the right at tremendous speed before returning. It then drifted slowly away. It was louder than a plane or helicopter.

A bright red light over the house.

Single small white orb shortly joined by two others. Changed into a dull flat circular shape. They were hovering over Central London at 15-20,000 ft but not blown by the wind. Objects disappeared but one reappeared for 5 minutes

Six very bright orange lights flying in formation passed by in 15 minutes. Heading from Upper Norwood towards Crystal Palace

Twenty orange balls heading north.

Dear Section 40

Thank you for your e-mail of the 27 October 2009 requesting information about the number of UFO's that have been recovered from UK soil in the last 10 years. This has been considered as a request for information in accordance with the Freedom of Information Act 2000 (FOIA).

There has been no recovery of any UFO from UK soil.

It may be helpful if I explain that the MOD examines any reports of 'unidentified flying objects' it receives solely to establish whether what was seen might have some defence significance; namely, whether there is any evidence that the United Kingdom's airspace might have been compromised by hostile or unauthorised air activity.

Unless there is evidence of a potential threat to the United Kingdom from an external source, and to date no UFO report has revealed such evidence, we do not attempt to identify the precise nature of each sighting reported to us. We believe that rational explanations, such as aircraft lights or natural phenomena, could be found for them if resources were diverted for this purpose, but it is not the function of the MOD to provide this kind of aerial identification service. It would be an inappropriate use of defence resources if we were to do so.

The MOD does not have any expertise or role in respect of 'UFO/flying saucer' matters or the question of the existence or otherwise of extraterrestrial life forms, about which it remains totally open-minded. I should add that to date, the MOD knows of no evidence which substantiates the existence of these alleged phenomena.

If you are not satisfied with this response or you wish to complain about any aspect of the handling of your request, then you should contact me in the first instance. If informal resolution is not possible and you are still dissatisfied then you may apply for an independent internal review by contacting the Head of Corporate Information, 6th Floor, MOD Main

Building, Whitehall, SW1A 2HB (e-mail CIO-FOI-IR@mod.uk). Please note that any request for an internal review must be made within 40 working days of the date on which the attempt to reach informal resolution has come to an end.

If you remain dissatisfied following an internal review, you may take your complaint to the Information Commissioner under the provisions of Section 50 of the Freedom of Information Act. Please note that the Information Commissioner will not investigate your case until the MOD internal review process has been completed. FREEDOM OF INFORMATION CORRESPONDENCE - TO BE GIVEN A HIGH PRIORITY

Dear Focal Point(s)

The Freedom of Information (FOI) request for information (RFI) below has been placed with you, but not confirmed on the Access to Information Toolkit (AIT). [insert details here, of which area should answer which part of the RFI, if it has been broken into different sections]

Please acknowledge within two working days that you are the appropriate area to respond, or lead, and we will confirm this on AIT. You should respond to the requester within twenty working days of the date the request was made. If you consider another area is more appropriate to respond or lead, then please approach them, also within two working days. Please engage with the FOI Helpdesk at all times when you are looking to place a request elsewhere. The FOI Helpdesk will be pleased to assist during this process.

This request will be automatically allocated to your area, on AIT, after three working days, if the FOI Helpdesk receives no receipt or evidence of action to place the request elsewhere.

If you are copied into this email, you may be a relevant contributor to the response and you should liaise with the lead respondent.

This process is set out to maximise the amount of time to find information and respond, when this request has been placed with the appropriate subject matter expert.

If the FOI request has been submitted by the media, or if you are concerned about potential media interest in the FOI response please contact MOD Press Office prior to release. Whether the potential for interest is new or existing, please ensure that press officers have sight of the release before sending, with appropriate and realistic deadlines for when you need a reply from them. Please send your draft and any supporting information to Directorate Media and Communications (DMC) addressed to [Section 40] [Section 40]@mod.uk Tel:

Dear **Section 40**

Thank you for your response.

I wonder if you would care to look in to a second UFO sighting which took place over Aberporth, Ceredigion, at 9.05pm on Friday, October 2?

On that occasion several witnesses, including myself, watch four orange, spherical objects fly over the village in close formation before apparently merging and disappearing as one. Inquiries with the local West Wales Airport (where UAVs) are constantly tested, have drawn a blank.

I can assure you that this will be my final request for info on the subject of UFOs!

Dear Section 40

Thank you for your email of 15 September. This has been considered as a request for information in accordance with the Freedom of Information Act 2000 (FOIA).

You asked:

Was there any military activity taking place in this area at this time?

If so, what type of aircraft was involved?

What was the purpose?

Have there been any reports of UFOs from this area and time?

Is the MOD aware of any explanation for this sighting?

There was no military activity taking place in the Wirral area around 11.00pm on 5 September 2009. Consequently there were no military aircraft involved and as such the question of purpose does not arise. However, our enquiries have confirmed that there were three civilian aircraft around the area at the time stated by you.

I have not been able to trace any reports, so far, of UFOS for the area you asked for at the time requested.

The MOD is unaware of any explanation for this sighting. It may be helpful if I explain that the MOD examines any reports of 'unidentified flying objects' it receives solely to establish whether what was seen might have some defence significance; namely, whether there is any evidence that the United Kingdom's airspace might have been compromised by hostile or unauthorised air activity.

Good afternoon [Section 40]

PFA the synopsis for Inc 247/09. The CD is in the post.

Three aircraft can be seen around the area at the time stated they are all civilian aircraft, two belonging to Ryanair and the third Easyjet.

I hope I am not insulting your intelligence, but when the CD arrives the white cross in the centre of the screen is roughly in the middle of the Wirral, which stands out quite clearly, and the little blue square in the lower right quarter of the screen is Liverpool John Lennon Airport.

If you have any further questions please do not hesitate to call.

Dear RAC

RAF Business Secretariat has received a Freedom of Information request, and we would be grateful if you were able to provide a radar trace by COP 09/10/09.

The requestor asked:

"Was there any military activity taking place in the Wirral at 23:00 on 05/09/09?
If so, what type of aircraft was involved?"

Many thanks for your help with this.

Dear RAC,

We have received a FOI request regarding a UFO sighting that was reported in the Warminster area on the night of Saturday 29 Aug 09 at 22:33. The requestor is asking if there were ***"any UAV's or other military aircraft were flying on this flight path at that time"***. The sighting details are as follows: ***"The object was sighted from an east facing view point on Cradle Hill near Elm Hill, Warminster and was travelling in a north-north-east direction before changing to an easterly direction and disappearing into the distance."***

If you are able to conduct a radar trace, a response, if possible, by COP 25 Sep 09 would be appreciated.

To answer the question faithfully you would need to contact every flying Squadron/Organization within the military, retrieve all their flight logs, analyse them, and determine where each aircraft was on the day and time in question. I do not have the capacity to do this; I suspect you do not either. What I can say is there was no Air Cmd OpTrg sponsored Exercise Flying over the Wirral on the 5 Sep and 2300hrs.

I would like to make an FOI request about a set of unidentified flying objects in the Wirral area on 5/9/09.

At about 11pm, myself and a few other people saw about 10 orange lights go past in Irby village, the speed of planes but no flashing and no noise. They followed each other by about 30 seconds or so.

I don't believe they could have been Chinese lanterns as they weren't bobbing about but following each other, perfectly aligned. They headed from the west towards Liverpool.

My query is:

Was there any military activity taking place in this area at this time?
If so, what type of aircraft was involved?
What was the purpose?
Has there been any reports of UFOs from this area and time?
Is the MOD aware of any explanation for this sighting?

I trust I will hear from you within the statutory 20 working day limit.

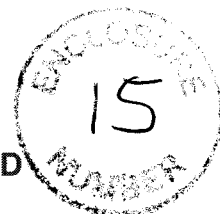

Many thanks

Dear Section 40

Thank you for your email requesting information a UFO sighting in the Warminster area on Saturday, 29 August 2009 at 22:33. I am replying as this is an area that falls within Air Command's remit. This has been considered as a request for information in accordance with the Freedom of Information Act 2000 (FOIA).

You asked us to confirm whether any UAVs or military aircraft were flying at this time. I can confirm that no UAVs or military aircraft were in the area at the time in question. However, a Police helicopter was operating in the vicinity. For your information I have also checked our records and there are no other reported sightings for the Warminster area for that date.

I hope you find this information useful.

If you are not satisfied with this response or you wish to complain about any aspect of the handling of your request, then you should contact me in the first instance. If informal resolution is not possible and you are still dissatisfied then you may apply for an independent internal review by contacting the Head of Corporate Information, 6th Floor, MOD Main Building, Whitehall, SW1A 2HB (e-mail CIO-FOI-IR@mod.uk). Please note that any request for an internal review must be made within 40 working days of the date on which the attempt to reach informal resolution has come to an end.

If you remain dissatisfied following an internal review, you may take your complaint to the Information Commissioner under the provisions of Section 50 of the Freedom of Information Act. Please note that the Information Commissioner will not investigate your case until the MOD internal review process has been completed. Further details of the role and powers of the Information Commissioner can be found on the Commissioner's website, <http://www.ico.gov.uk>.

I looked at each of the above stated radars from and although no aircraft were seen to pass directly over the RP the following was observed:

London Heathrow Radar

At 21.16:56 an intermittent primary only radar return is observed (this is the + symbol) 6.0nm NW of the RP, this continued slowly on a SE heading until at 21.33:53 it passes 2.0nm NE of the RP still on the SE heading.

This is not a particularly good area for low level coverage. The slow moving primary track heads directly towards Boscombe Down which it passes at 2159:54. It maintains a SE heading passing 5.7nm N of Southampton airport at 2230:59. The return finally fades from radar in the vicinity of Midhurst at 22:56:09. Dear Section 40

Thank you for your Freedom of Information request of 26 September 2009 asking for information regarding the 5 UFOs that passed near Gatwick on the same day.

Firstly, it may be helpful if I explain that the Ministry of Defence (MoD) examines any reports of 'unidentified flying objects' it receives solely to establish whether what was seen might have some defence significance; namely, whether there is any evidence that the United Kingdom's airspace might have been compromised by hostile or unauthorised air activity.

Unless there is evidence of a potential threat to the United Kingdom from an external source, and to

date no UFO report has revealed such evidence, we do not attempt to identify the precise nature of each sighting reported to us. We believe that cabinet examinations of such phenomena could be found for many resources were diverted to this purpose. It would be an inappropriate function of the MoD to provide this kind of aerial identification service. It would use of defence resources if we were to do so.

txtinforequest: I would like to request information on the 5 UFO that passed approximately 2 miles north east of Gatwick Airport at 10.15 pm on Saturday 26th September 2009. These were not planes, unless 5 happened to be on fire at the same time, following each other closely, whilst planes on their regular flight path circled for Heathrow and Gatwick. They were too high for helicopters, satelites and meteors wouldn't explain the fact that they suddenly all shot up in the sky and disappeared one after the other.

Any information you can provide would be greatly appreciated.

Thank you.

Dear Section 40

Thank you for your e-mail of 31 August 2009 concerning the strange occurrence you witnessed over the Doncaster area on Saturday, 30 August 2009. I have assumed that you are referring to Sunday 30 August, but for completeness I have checked both dates. I am replying as this is an area that falls within Air Command's remit. This has been considered as a request for information in accordance with the Freedom of Information Act 2000 (FOIA).

You asked us to check with RAF Waddington for any military flights operating in the Doncaster area on that date. I have confirmed that there were no military flights over the Doncaster area for either the 29 or 30 August 2009. A radar trace was also conducted for both those dates but nothing was found to match the events you reported. For your information no other UFO reports have been received for the Doncaster area for those dates.

Unless there is evidence of a potential threat to the United Kingdom from an external source, and to date no UFO report has revealed such evidence, we do not attempt to identify the precise nature of each sighting reported to us. We believe that rational explanations, such as aircraft lights or natural phenomena, could be found for them if resources were diverted for this purpose, but it is not the function of the MoD to provide this kind of aerial identification service. It would be an inappropriate use of defence resources if we were to do so.

The MoD does not have any expertise or role in respect of 'UFO/flying saucer' matters or the question of the existence or otherwise of extraterrestrial life forms, about which it remains totally open-minded. I should add that to date, the MoD knows of no evidence which substantiates the existence of these alleged phenomena.

I am sorry I could not be more helpful.

If you are not satisfied with this response or you wish to complain about any aspect of the handling of your request, then you should contact me in the first instance. If informal resolution is not possible and you are still dissatisfied then you may apply for an independent internal review by contacting the Head of Corporate Information, 6th Floor, MOD Main Building, Whitehall, SW1A 2HB (e-mail CIO-FOI-IR@mod.uk). Please note that any request for an internal review must be made within 40 working days of the date on which the attempt to reach informal resolution has come to an end.

If you remain dissatisfied following an internal review, you may take your complaint to the Information Commissioner under the provisions of Section 50 of the Freedom of Information Act. Please note that the Information Commissioner will not investigate your case until the MOD internal review process has been completed. Further details of the role and powers of the Information Commissioner can be found on the Commissioner's website, <http://www.ico.gov.uk>.

Yours sincerely

Hello **Section 40**

Ref the 'strange occurrence' report from **Section 40** in Doncaster.

He said the events he witnessed were between 2056 local time and 2106 local time on Saturday 30 Aug...but 30 Aug was a Sunday.

Did he mean Saturday 29 Aug or Sunday 30 Aug?

To cover all the bases I did radar observations for both nights.

Details of those observations are as follows:

Saturday 29 Aug

I used Claxby, Great Dun Fell, Clee Hill and St Annes radars.
I looked at each of the 4 radars from 2045 local time until 2115 local time.
Nothing matching the reported events was seen.

Sunday 30 Aug

I used Claxby, Great Dun Fell, Clee Hill and St Annes radars.
I looked at each of the 4 radars from 2045 local time until 2115 local time.
Nothing matching the reported events was seen.

If you require any further information please do not hesitate to call me.

Regards.

Sir, I am ex-raf and a retired Police Officer at Doncaster. I fly regularly around the world on the A380 and other aircraft. I have taken helicopter lessons, and used to be a sgt in Doncaster control room, where I regularly controlled SY99 south yorks police helicopter on incidents at Doncaster. Many aircraft and helicopters fly over or near to my house at Robin Hood airport. I can easily recognise differing aircraft. I am a credible witness.

Now, to the point, last night, Saturday 30th August 2009, I was at home with my wife Section 40 were watching television in the front room, the curtains were open, no lights on to cause any reflections. I had not been drinking. My view was out of the window over the rooftops towards Doncaster Royal infirmary and the town centre.

At 856pm, a bright orange light emerged from the distance coming towards our house. At first I thought it was the Police helicopter SY99 which flies around this area quite regularly - it wasn't. There was no noise of the engines or of the chopping sound as it approached. The orange ball had no navigation lights to front or the side/wing tips. It was about the same size as an helicopter, shape not discernable. It veered to its left and accelerated going north towards Barnby Dun. Its height was about normal helicopter height, maybe a little higher - the speed was faster than the police SY99.

This object was out of sight within 5-6 seconds.

Within 3 mins, 2 more separate orange objects appeared, same route, same trajectory - they were spaced about 300 metres apart - they went on same route north. I went outside on my front driveway to have a look - no reflections, the 2 objects accelerated out of view ascending slightly.

My wife came out with me to have a look, she likewise was looking in awe.

In another 2 mins another 2 orange objects appeared, took same route again and vanished, I rushed upstairs to get my Nikon video camera, to get a quick shot of them; by the time I got downstairs they had gone. As I set my camera up, another single orange object (the 6th) appeared the same way and travelled North as the previous 5. The time now was 9.06pm. I was not able to take a photo. I have since left my camera next to me in case it happens again.

I have no idea what the 6 objects were, bright orange shapes, under own propulsion - no navigation lights.

My wife Section 40 a credible witness, she is an HR Manager at a local grammar school.

I immediately texted my local radio station, Traxfm, asking if there had been any other sightings - I haven't had a reply.

I know there is normally a feasible explanation, I cannot give one, nor can my wife.

Would you kindly check with Raf Waddington for any military flights/amber control for Manchester flights/cross country flights/weather balloons (no it wasn't one of them). I suppose West Drayton will be checked out and liaised with.

Please put my our minds at rest. I do not want any publicity, I thought the sightings should be reported.

Dear Section 40

Thank you for your e-mail of 18 August 2009, concerning your report of strange flying objects seen during the night of Saturday 8 August 2009. I am replying as this is an area that falls within Air Command's remit. This has been considered as a request for information in accordance with the Freedom of Information Act 2000 (FOIA).

You asked if there were any MOD operations that evening. I have been unable to trace records for any military operations in the area of Twyford for that date. I have also check our records and no other unusual sightings have been reported. Also you asked the question if the MOD have any airplanes which are static. The only aircraft we have that are capable of remaining static in mid-air are helicopters and Harrier jets.

If you are not satisfied with this response or you wish to complain about any aspect of the handling of your request, then you should contact me in the first instance. Dear Sqn Ldr Baxter,

We have received an FOI request regarding military activity/exercises over Twyford, Berkshire. Please would you be able to confirm whether or not there was any military activity over Twyford on 8/9 August at 00:50hrs. A response by Friday 21 August would be appreciated. Thanking you in advance for your help.

Subject: Strange siting - Sunday 9th August 2009 0.50am

I am writing to report a strange siting of flying objects during the night of Saturday 8th August, early Sunday 9th August 2009.

I heard a faint noise which sounded like the police helicopter flying locally. When I looked out of the window the sound had faded away and all was quiet. However in the sky I noticed some strange very bright orange lights. They were very high and flying in a line. As I looked the first 2 of the 5 lights I could see disappeared or moved over the house. The next three flying equal distance to each other continued to move in the same direction, North to South approximately. The lights did not flash, there was no sound, and they moved steadily in a straight line about the height of a medium height plane. As they became closer they began to fade in turn and then disappear. I ran to the other side of the house assuming they had gone into cloud, but there was not site of them. However the moon and a bright star were clearly visible through the light cloud. I returned back to the original window facing North West and ! another very bright orange light appeared following the same path. This light moved in the same direction then slightly earlier than the others started to fade, even though there was not obvious build up of thick cloud. It then disappear before actually reaching the point of passing over the adjacent flat roof. Again I ran to the other side of the house, but again there was nothing.

This all took approximately 5 to 10 minutes. Unfortunately no-one else in the house saw them to witness it.

Were any MOD operations taking place that evening? Do you have any airplanes which are static

Our Ref: TOC2009

22 September 2009

Dear Section 40

Thank you for your email of 14 September about lights on aircraft.

It may be helpful if I explain that the Ministry of Defence (MOD) examines any reports of 'unidentified flying objects' it receives, solely to establish whether what was seen might have some defence significance; namely, whether there is any evidence that the United Kingdom's airspace might have been compromised by hostile or unauthorised air activity.

Unless there is evidence of a potential threat to the United Kingdom from an external source, and to date no UFO report has revealed such evidence, we do not attempt to identify the precise nature of each sighting reported to us. We believe that rational explanations, such as aircraft lights or natural phenomena, could be found for them if resources were diverted for this purpose, but it is not the function of the MOD to provide this kind of aerial identification service. It would be an inappropriate use of defence resources if we were to do so.

However, open source information on aircraft lighting systems is available from a variety of outlets, such as the internet or from reference books in public libraries. Basic technical details of aircraft can be found in Jane's *All the World's Aircraft*, which may be available from your local public library.

If your local library lacks the information you seek, you may wish to make use of the internet. I did an internet search which indicated that aircraft navigation lights are placed in a way similar to that of marine vessels, with a red navigation light located on the left wingtip leading edge and a green light on the right wingtip leading edge. A white navigation light is as far as possible to the edge of the tail or each wing tip. High-intensity strobe lights are located on the aircraft to aid in collision avoidance.

Navigation lights in civil aviation are required to be operational and to be turned on from sunset to sunrise. High-intensity white strobe lights are part of the anti-collision light system, as well as the aviation red or white rotating beacon. The anti-collision light system (either strobe lights or rotating beacon) is required to be operational and to be turned on for all airplanes built after 11 March 1996 on all aircraft operations.

For further information on lighting specifications you may also wish to contact the Civil Aviation Authority. Their Library and Information Centre, located at Aviation House, Gatwick Airport South, West Sussex RH6 0YR, contains a collection of books, reports, directories, statistics, videos, and periodicals on aviation. The CAA Library is open to members of the public Monday to Friday from 09.30 to 16.30 (10.00 to 16.30 on the first Wednesday of the month) who are welcome to use the Library for reference purposes. A photocopier and microfilm/microfiche reader printers are available for public use. Charges are payable for copies and microform printouts. The Library can be contacted on 01293 573725, Fax 01293 573181, or e-mail infoservices@caa.co.uk

You also asked for what happens to sighting reports received by the MOD. Reports of sightings are recorded and acknowledged whenever contact details are provided. Although the overwhelming majority of the UFO desk's work involves (and has for decades) answering correspondence from the public or recording sightings reported to the MoD, we do on occasion investigate reports. This usually involves liaising with air defence specialists (e.g. radar specialists) on perhaps half a dozen reports per year. These will generally be sightings made by aircrew, members of the armed forces or the police.

UFO files are released annually to the National Archives – please follow this link for more details: <http://ufos.nationalarchives.gov.uk/>

I hope this is helpful to you.

Yours sincerely

Thanks for that. However, I have found this generic paragraph on Wikipedia. Please can you confirm that military aircraft generically conform with this lighting pattern.

Aircraft navigation lights are placed in a way similar to that of marine vessels, with a red navigation light located on the left wingtip leading edge and a green light on the right wingtip leading edge. A white navigation light is as far aft as possible on the tail or each wing tip. High-intensity strobe lights are located on the aircraft to aid in collision avoidance.

Navigation lights in civil aviation are required to be operational and to be turned on from sunset to sunrise. High-intensity white strobe lights are part of the anti-collision light system, as well as the aviation red or white rotating beacon. The anti collision light system (either strobe lights or rotating beacon) is required to be operational and to be turned on for all airplanes built after March 11, 1996 on all aircraft operations.

Many thanks for your help.

The member of the public wishes to know whether any RAF aircraft have navigation lights which are permanently on and are coloured orange? I understand that some lights may appear orange due to visual distortion at night. She believes she saw an aircraft which had fixed navigation lights and no visible strobe lights, but she thought all aircraft operated with strobe lights. Can you provide any generic information on military aircraft lighting.

Thank you for your reply. Where I mentioned static, it was in relation to the lighting on the aircraft not the actual aircraft itself. The aircraft did not stop or remain stationary at any time, however the bright orange lights were static, therefore they did not flash. They just stayed on all the time. Do you have any aircraft or know of any aircraft where the lights remain on continuously, do not flash and are orange?

I appreciate your need for a formal reply, but do not have any complaint to raise. Would it be possible to let me know what happens to the information about sightings like this one.

Dear Section 40

Thank you for your UFO sighting report and your Freedom of Information request of 21 August 2009 asking for details of recent UFO reports. Additionally, you mentioned that you were interested in sightings prior to 1967.

Firstly, it may be helpful if I explain that the Ministry of Defence (MoD) examines any reports of 'unidentified flying objects' it receives, solely to establish whether what was seen might have some defence significance; namely, whether there is any evidence that the United Kingdom's airspace might have been compromised by hostile or unauthorised air activity.

Unless there is evidence of a potential threat to the United Kingdom from an external source, and to date no UFO report has revealed such evidence, we do not attempt to identify the precise nature of each sighting reported to us. We believe that rational explanations, such as aircraft lights or natural phenomena, could be found for them if resources were diverted for this purpose, but it is not the function of the MoD to provide this kind of aerial identification service. It would be an inappropriate use of defence resources if we were to do so.

The MoD does not have any expertise or role in respect of 'UFO/flying saucer' matters or the question of the existence or otherwise of extraterrestrial life forms, about which it remains totally open-minded. I should add that to date, the MoD knows of no evidence which substantiates the existence of these alleged phenomena.

I attach details of UFO sightings reported to the MoD for January to August 2009.

Details of UFO sightings reported to the MoD for the period 1997-2008 are available for viewing on the MoD website www.mod.uk by searching under "UFO Reports".

You might also be interested to know that the MOD has already released a great deal of information about UFOs which is available for public viewing. MOD files were routinely destroyed after being held for five years until 1967, when they were generally preserved for The National Archives. A few have survived before 1967 and these together with records up to 1992 are now available for public viewing. They can be contacted at Ruskin Avenue, Richmond, Kew, Surrey TW9 4DU or telephone, 020 8876 3444. The National Archives also have a website giving information about the records they hold and how to access them. This can be found on the internet at www.nationalarchives.gov.uk.

Additionally, we are part way through a three year programme to release UFO files from the

Directorate of Air Staff and the Defence Intelligence Staff covering the period from the late 1970 to 2007. You may wish to consider contacting The National Archives press office for details of when the next release is due.

I hope this is helpful.

If you are not satisfied with this response or you wish to complain about any aspect of the handling of your request, then you should contact me in the first instance. If informal resolution is not possible and you are still dissatisfied then you may apply for an independent internal review by contacting the Head of Corporate Information, 6th Floor, MOD Main Building, Whitehall, SW1A 2HB (e-mail CIO-XD@mod.uk). Please note that any request for an internal review must be made within 40 working days of the date on which the attempt to reach informal resolution has come to an end.

If you remain dissatisfied following an internal review, you may take your complaint to the Information Commissioner under the provisions of Section 50 of the Freedom of Information Act. Please note that the Information Commissioner will not investigate your case until the MOD internal review process has been completed. Further details of the role and powers of the Information Commissioner can be found on the Commissioner's website, <http://www.ico.gov.uk>.

On recent reports of FOI act it has accrued to me that all UFO siting have to go through you in order for them to be dealt with by the MOD and the government. on 19/aug/09 at 2100 to 2330hrs there were reports of objects in the sky by an unknown male and i witness light in the sky, me and the male saw approx 30+.
the objects in the sky were in different context as followed;

flashing in sequence of approx 7 second
straight line running (sometimes zig zag)
random flashes of light (white and orange)
the location of which were seen were 52°56'N, 01°28'W (latitude and longitude)
this was seen by the naked eye
flying in 3 different paths
1 west to east
2 east to west
3 west to north
the weather was a clear night no cloud hangover.

* in concept to this report i request information on the recent reports made by other so i can compare my data with other that have seen and reported this to you. i only want it sent as an email as im sure paper work is not an option as i know 170 UFO file is unfit to obtain. And Section 12 of the FOI Act allows public authorities to refuse to answer requests for information if the cost of complying would exceed the "appropriate limit" prescribed in the Regulations. and i would put it at guess that 170 files of information would exceed the limit.
* but my main interest is those before 1967.

if there are any concern to my report contact me on this email address. as you are well aware that i am ex service personal, and i have signed secret service act and the information i have supplied will not leave my hands

Dear Section 40

Thank you for your Freedom of Information request of 10 September asking to see the Ministry of Defence UFO files for the entire country.

The Ministry of Defence (MoD) has over 160 UFO files and the cost of preparing these for release to you would far exceed the £600 limit set for compliance with the Freedom of Information Act. This represents the estimated cost of one person spending 3 and a half working days in determining whether the Department holds the information, and locating, retrieving and extracting the information. Under the terms of Section 12 of the FOI Act, this means that we are not obliged to comply with this element of your request at this time

However, details of UFO sightings reported to the MoD for the period 1997-2008 are available for viewing on the MoD website www.mod.uk by searching under "UFO Reports".

Dear **Section 40**

Thank you for your Freedom of Information request of 30 July and clarification e-mail of 26 August 2009, asking for documentation the Ministry of Defence (MoD) holds on the Rendlesham Incident for the period 12 November 1980 to 1 January 2009.

The MoD file on the incident has now been made available to the general public to view at The National Archives who can be contacted at Ruskin Avenue, Richmond, Kew, Surrey TW9 4DU or by telephone on 020 8876 3444. The National Archives also have a website giving information about records they hold and how to access them. This can be found on the internet at www.nationalarchives.gov.uk.

Documentation regarding the Rendlesham Incident can also be found on a number of other files. It is comprised primarily of letters from members of the public such as yourself, asking for details about the incident. To provide you with all this documentation would far exceed the £600 limit set for compliance with the Freedom of Information Act. This represents the estimated cost of one person spending 3 and a half working days in determining whether the Department holds the information, and locating, retrieving and extracting the information. Under the terms of Section 12 of the FOI Act, this means that we are not obliged to comply with this element of your request.

If you are not satisfied with this response or you wish to complain about any aspect of the handling of your request, then you should contact me in the first instance. If informal resolution is not possible and you are still dissatisfied then you may apply for an independent internal review by contacting the Head of Corporate Information, 6th Floor, MOD Main Building, Whitehall, SW1A 2HB (e-mail CIO-FOI-IR@mod.uk). Please note that any request for an internal review must be made within 40 working days of the date on which the attempt to reach informal resolution has come to an end.

If you remain dissatisfied following an internal review, you may take your complaint to the Information Commissioner under the provisions of Section 50 of the Freedom of Information Act. Please note that the Information Commissioner will not investigate your case until the MOD internal review process has been completed. Further details of the role and powers of the Information Commissioner can be found on the Commissioner's website, <http://www.ico.gov.uk>.

Dear **Section 40**

Thank you for your Freedom of Information request of 30 July 2009.

Your request was quite brief, but I assume from that you would like to see any documentation the Ministry of Defence (MoD) holds on the Rendlesham case between the dates 12 November 1980 and 1 January 2009.

The Rendlesham case is very popular amongst those members of the public interested in UFO matters and the MoD receives a considerable amount of correspondence on the matter. The overwhelming bulk of the information the MoD holds on the Rendlesham case is simply letters and e-mails such as yours asking for information.

Before I take your request any further, could you confirm whether you are interested in this type of information or not.

Dear Sir or Madam

Thank you for your Freedom of Information request of 18 August 2009 asking for a copy of the MoD file on the Rendlesham Incident. Additionally, you asked why it had been withdrawn from the MoD website but could be available in response to an FOI request and why the proactive release date shown on the website was earlier than the date of the actual incident.

The MoD file on the Rendlesham Incident is available to view at The National Archives website at www.nationalarchives.gov.uk

The reason that the Rendlesham file had been withdrawn from the MoD website for copyright reasons but was available under the Freedom of Information Act, is because some 40% of the information on the file is correspondence from the public. This material is subject to the Copyright Designs and Patents Act 1988, which prohibits its publication on the internet. When this was realised, it was decided to remove the file from the MoD website. However, the MoD has an overriding requirement to release material under FOI, which does not count as "publication" by the Department.

Finally the dates shown on the website are incorrect due to an administrative error.

I hope this is helpful.

If you are not satisfied with this response or you wish to complain about any aspect of the handling of your request, then you should contact me in the first instance. If informal resolution is not possible and you are still dissatisfied then you may apply for an independent internal review by contacting the Head of Corporate Information, 6th Floor, MOD Main Building, Whitehall, SW1A 2HB (e-mail CIO-FOI-IR@mod.uk). Dear Section 40

Thank you for your e-mail of 28 August 2009 and the photographs taken in Blackpool in October 2008. You asked whether there were any manoeuvres in the area to explain the craft pictured in the photographs. I am replying as this is an area that falls within Air Command's remit. This has been considered as a request for information in accordance with the Freedom of Information Act 2000 (FOIA).

I can confirm that the MOD does have records on military manoeuvres, but there were no Royal Air Force or Army manoeuvres in the Blackpool area in October 2008.

I also asked the Royal Navy (RN) to check their records. To provide the information you requested we would have to examine the log of every UK-based RN ship to determine whether it (or it's aircraft, if appropriate) was in the vicinity during the specified period. The cost of obtaining this information would exceed the £600 limit set for compliance with the FOIA. This represents the cost of one person spending three and a half working days in determining whether the Department hold the information, and locating, retrieving and extracting the information. Under the terms of Section 12 of the FOIA this means that we are not obliged to comply with this element of your request.

I am sorry I could not be more helpful.

"Records are not kept that would identify any ships which may have been in that area at that time. To answer this question conclusively each ships log of all units that were UK based over the period would need to be examined to see whether they (or their aircraft) may have been in the vicinity. Consequently, it has been assessed that the costs for which we are permitted to charge in providing this information will exceed £600"

I have done a trawl of the likely suspects and I can confirm that there were no manoeuvres or exercises taking place in the Blackpool vicinity during Oct last year. Everyone who has seen them think that two of the photos look like stunt kites that have broken loose from their control strings or perhaps we cannot quite see the attached strings in the photos. That would explain the lack of noise reported by the photographer. The third looks like a seagull head on. However, clearly without being there we can't be definitive.

Dear All,

I have been tasked with answering an FOI request from a [Section 40] please see e-mail below, regarding some photographs he took last year. (I have attached the photographs for your information). He is interested in finding out if there were any manoeuvres/exercises in the area of Blackpool during Oct 2008. I would be most grateful if you would check to see if there were any exercises/manoeuvres in the area of Blackpool in October last year. A response by COP Thursday 10 Sep 2009 would be appreciated.

Thanking you in advance for your help. 

Regards

Dear Section 40

Thank you for your Freedom of Information request of 14 August 2009 asking for information for UFO sightings for 2009.

I attach details of UFO sightings reported to the MoD for January to August 2009. Additionally, details of UFO sightings for the period 1997-2008 can be found on the MoD website www.mod.uk by searching under "UFO Reports".

You might also be interested to know that the MOD has already released a great deal of information about UFOs which is available for public viewing. MOD files were routinely destroyed after being held for five years until 1967, when they were generally preserved for The National Archives. A few have survived before 1967 and these together with records up to 1992 are now available for public viewing. They can be contacted at Ruskin Avenue, Richmond, Kew, Surrey TW9 4DU or telephone, 020 8876 3444. The National Archives also have a website giving information about the records they hold and how to access them. This can be found on the internet at www.nationalarchives.gov.uk.

Additionally, we are part way through a three year programme to release UFO files from the Directorate of Air Staff and the Defence Intelligence Staff covering the period from the late 1970's to 2007. You may wish to consider contacting The National Archives press office for details of when the next release is due.

I hope this is helpful.

If you are not satisfied with this response or you wish to complain about any aspect of the handling of your request, then you should contact me in the first instance. If informal resolution is not possible and you are still dissatisfied then you may apply for an independent internal review by contacting the Head of Corporate Information, 6th Floor, MOD Main

Building, Whitehall, SW1A 2HB (e-mail CIO-XD@mod.uk). Please note that any request for an internal review must be made within 40 working days of the date on which the attempt to reach informal resolution has come to an end.

If you remain dissatisfied following an internal review, you may take your complaint to the Information Commissioner under the provisions of Section 50 of the Freedom of Information Act. Please note that the Information Commissioner will not investigate your case until the MOD internal review process has been completed. Further details of the role and powers of the Information Commissioner can be found on the Commissioner's website, <http://www.ico.gov.uk>.

Yours sincerely

4 Jan 09		Haslingdale/Rossendale	Lancashire	4 or more moving bright solid orange lights. Followed by a further 8 identical objects. Rose vertically over the side on the valley. Made no sound.
3-4 Jan 09		Sandbach	Cheshire	A UFO. An orange/yellow light
5 Jan 09	19:00	Malvern	Worcestershire	A V shaped formation similar to how birds fly of 7 lights. Moved rapidly across the sky rotated slightly then the lights split up and vanished. Lights were size and brightness of stars. No noise and no visible trails in sky.
6 Jan 09		Cardigan	Cardiganshire	Five rather big orange things flew over the witness. He was terrified.
6 Jan 09	21:00	Northampton	Northamptonshire	Strange lights. Eleven in total.
8 Jan 09	04:40	Blackpool	Lancashire	A green light with a white light on the outer rim. Flew over the hills and disappeared once it passed the motorway.
9 Jan 09		Exeter	Devon	An object in the sky over Exeter
12 Jan 09		Old Coulson	Surrey	Saw a large shape in the sky. It didn't look like a helicopter but sounded like one and was very loud. It hovered for an hour. Then headed towards caterham where a friend saw it
13 Jan 09	20:15	High Wycombe	Buckinghamshire	Strange burning objects in the sky
13 Jan 09		Leyton	London	Object that moved quickly through the sky. He has photographs (On 3 Days)

14 Jan 09	Leyton	London	Object that moved quickly through the sky. He has photographs (On 3 Days)
18 Jan 09	Leyton	London	Object that moved quickly through the sky. He has photographs (On 3 Days)
18 Jan 09	19.44 Lichfield	Staffordshire	A bright yellow light. It vanished for a few seconds then reappeared.
19 Jan 09	Tarland	Aberdeenshire	A bright steady light in the sky. It then just moved and disappeared
23 Jan 09	20:40 Anlaby	Hull	A very large ball (looked like a fireball). The object was small, but rather far away
23 Jan 09	20:58 Undy	Newport	Object had a large light on the front & a smaller red and green light on either side, as if on the ends of a planes wings. Base was a perfect square and black in colour. It made a quiet humming sound.
23 Jan 09	21:40 West Cross	Swansea	Large ball of light. Light did not diminish. Very strange. Made no sound. Very strange.
24 Jan 09	23.05 Henleaze	Bristol	Large spherical object, bright orange in colour. Much bigger than any plane or helicopter. Glowed brightly all over. Was completely soundless.
25 Jan 09	23.25 Sittingbourne	Kent	A strange ball of bright orange light. Light faded out.
25 Jan 09	19:00 Livingston	West Lothian	An extremely bright blue circular light. After diving down at steep angle, rising then diving again, it vanished.
25 Jan 09	18:00 Perton	West Midlands	Star shaped and very bright, brilliant white. Changing shape. No noise.
26 Jan 09	17:15 Northolt	Middlesex	A bright oval orange in the sky. Thought at first it was an aircraft on fire. After five minutes the bright glow petered out and then became totally black. Lived in the area all her life but had never seen anything like it before.
26 Jan 09	21:45 Tarring	West Sussex	Four orange lights. At first mistook them for stars. Faded one by one
26 Jan 09	18:15 Bromley	Kent	separate at the top & two close together at the bottom. Top two rose and disappeared. 2nd two moved higher then also vanished
28 Jan 09	22:10 Grimsby	Lincolnshire	Light in the sky. Other lights falling or dripping from it to the ground. At first thought it was fireworks. Made no noise and was the size of a helicopter.
29 Jan 09	Colchester	Essex	We keep getting flown over by aliens galore. They are dropping germs and we keep getting colds. Please send the RAF to USAF to stop them.
Feb 09	East Kilbride	Lanarkshire	Five orange lights high in the sky over the house. Disappeared into the atmosphere
3 Feb 09	01:00 N/A	Thames Estuary	Same as the UFO seen over the House of Commons in Feb. 08. matches description The Sun gave.
3 Feb 09	10:10 West Row	Suffolk	Bright clear light shooting across sky. There were blue lights almost in line with the clear light. They were evenly spaced.
4 Feb 09	18.32 Chesterton	Newcastle Under Lyme	surface but not as bright. It reduced in size as it backed away from the wines An aircraft flew in its direction whilst giving it a wide berth.
5 Feb 09	Portslade	Sussex	Six red or orange lights in a large oval shape moving slowly towards Brighton. They made no noise
5 Feb 09	06:30 Cropwell Bishop	Nottinghamshire	Series of UFO Sightings. Three orange lights arranged vertically in the sky. No way they could be aircraft. Four sets of them
6 Feb 09	Rosendale	Lancashire	A blue and purple flashing light over the moors for 30 minutes
6 Feb 09	17:30 Mearlrigg	Cumbria	A clearly defined, shiny silvery metallic cylinder with rounded ends. Estimated 50ft in length. Small protrusion on upper rear body. Object made no sound nor visible emissions. Between Mearlrigg and Langrigg
6 Feb 09	20.10 Near Edinburgh Airport	Edinburgh	White on outer edges. 7-800ft long. Moving very fast from North to South.
7 Feb 09	Gorseinon	Swansea	Strange object seen when he developed photographs he had taken
7 Feb 09	20.05 N/A	N/A	Six lights, some red some orange and some white all travelling in the same direction. It was either one big object or six single objects. All travelling in the same direction.
7 Feb 09	19:30 Between Norwich/Lenwade	Norfolk	10 orange orbs. Orbs had slightly pulsating orange lights. Not like navigation lights. Made no noise.
7 Feb 09	22.05 Fowey	Cornwall	Strange object in the sky. Bright orange in colour with intensity of fire. Like a huge hanglider.
7 Feb 09	23.10 Basingstoke	Hampshire	A bright orange light travelling very fast from North to South east. Too large and bright to be a plane. In view for one minute then disappeared behind a cloud. Noticed no noise or tail.

8 Feb 09	21:00 Sutton	Surrey	5 UFOs. Bright round orange lights. Made no noise. Disappeared in direction on London.
8 Feb 09	20:00 Ashingdon	Essex	Lights in the sky. Definitely not a plane. Very strange.
9 Feb 09	Romsley	Shropshire	A peculiar bright light. The object was spherical shaped like a satellite. It moved West to East very quickly. Definitely not a satellite, helicopter or light aircraft
10 Feb 09	21:00 N/A	Somerset	Bright orange lights continuously going up and down on the horizon. Heading East in the direction of Frome or Wiltshire
10 Feb 09	22:45 Western-super-Mare	Somerset	An orange/yellow object moving NW to SE. Followed by 3 more. No navigation lights and they made no sound. Not that high up. Disappeared into the distance quicker than they arrived.
13 Feb 09	23:12 Bradford-on-Avon	Wiltshire	An brightly glowing orange ball. It seemed to be a controlled craft. It hovered for a couple of minutes then the light seemed to deliberately fade. It was a few hundred feet up and a quarter of a mile from the house.
14 Feb 09	20:10 Roxwell	Essex	A bright orange object. The top was rounded like the top of a balloon and was a brighter orange towards the bottom. It appeared to be stationary.
15 Feb 09	06:30 Bennech	Anglesey	Strange lights seen over the bay.
15 Feb 09	Aberford	Leeds	Witness saw a long light flashing like a laser. Sometimes there were two lights crossing over. This is the third time they have been seen over six weeks
15 Feb 09	00:15 Winwick	Warrington	Two orange lights in the sky that hovered over the old hospital site. The lights were not together but were stationary. They made no noise. They then moved off in a southerly direction.
16 Feb 09	19:00 Colchester	Essex	A bright light that went straight up in the sky above the A12 near Colchester.
16 Feb 09	19:19 Leigh	Greater Manchester	A dome shaped orange ball of light. It suddenly took off from a field. It was organic like a jellyfish. Transparent, and you could see its internal workings. It departed swaying left to right and made a droning noise. 150-200ft in the air
19 Feb 09	19:50 Gravesend	Kent	A ball of light with a few lights inside. It hovered over Gravesend for some 30 minutes. Too static for a helicopter.
20 Feb 09	21:45 Bradford	West Yorkshire	Two strange lights behind the clouds that appeared to be playing with each other. pretending to crash into each other. Then they were joined by a third light that hovered underneath them, going back and forth.
21 Feb 09	22:45 Arundel	West Sussex	Disappeared behind trees then were seen in a line with long gaps between them. Heard no engine noise. Headed south for two miles before vanishing.
22 Feb 09	19:30 Swindon	Wiltshire	80 bright lights over the top of Queen's Hill in Swindon
22 Feb 09	19:00 Oxted	Surrey	On bottom it had something like a root structure. It looked like it was having some trouble but righted itself, and gently flew off.
22 Feb 09	19:30 Bedford	Bedfordshire	A sizeable, silent, flickering orange light. Difficult to judge height and speed but much slower than any meteorite and much faster than the prevailing wind which was negligible.
22 Feb 09	South East London	London	Wharf. It stopped in mid air and an alternating sequence of red lights flashed at 180 degrees. Lights switched side instantly.
22 Feb 09	01:10 Chepstow	Gwent	A single object the size of a large car. Silver with flames flickering from the underside. Then moved up and away
23 Feb 09	19:17 New Ash Green	Kent	A ball of light in the clouds, moving slowly and falling apart. Had other white lights coming off it. Made no sound.
23 Feb 09	22:52 South East London	London	It was the flashing of a huge object with one normal and two green lights. It was flying low. Only saw it for 4 seconds than it vanished from site.
24 Feb 09	18:45 Hartlepool	Cleveland	Saw 4 spaceships that flew over the house into the sky. They had a bright light that fade and was then gone. They returned to the same spot they had come from.
25 Feb 09	18:30 Oldham	Manchester	A very bright object that glows red and bright.
26 Feb 09	19:15 Malmesbury	Wiltshire	The beams are coming from the lights, not the ground. Seen to the north. The lights are very round and flying in a small area.
27 Feb 09	21:00 Lelant	Cornwall	Two orange lights over Hayle Estuary moving at the speed of a helicopter but had no aircraft navigation lights.
27 Feb 09	18:15 Central London	London	central London at 10-15000ft with the same colours. Objects are identical and 3-4 miles apart on the approach path to Heathrow or London City.
27 Feb 09	23:00 Newquay	Cornwall	Bright orange object travelling west to east across the sky.
28 Feb 09	21:50 Mary Tavy near Dartmoor	Devon	Orange lights in the sky. Like fairy lights. Made no sound
28 Feb 09	04:30 Portlethen	Aberdeenshire	A big yellow glow in the sky to the south of Aberdeen. About 2500ft high but not aircraft landing lights.

Record_FOI

1 Mar 09	20:15 West Bridgford	Nottingham	equidistant and of equal speed. Disappeared about 45 degrees above the horizon. The swarm moved in an arc of 40 degrees in about 10 seconds.
1 Mar 09	19:00 Waringham	Surrey	Three very bright orange lights in triangular formation. They were circular with no tails. Travelling at speed towards the east. Made no sound. Could not tell height. Visible for 4-5 minutes before fading away one by one.
1 Mar 09	18:45 Bishopsmill	Merseyside	Lights like little stars in a half moon shape. A bright light at the centre was moving very slightly.
4 Mar 09	22:50 Swindon	Wiltshire	Various different lights in a star shape.
5 Mar 09	Selby	North Yorkshire	Two sphere like objects orange/red in colour. The first object ran parallel to the witness. dropped then disappeared. The second object moved straight across the sky line then disappeared.
7 Mar 09	05:00 Cottingham	Humberside	An object in the sky changing colour.
8 Mar 09	01:30 Bolton	Lancashire	came towards Dascari, stopped and headed in a SE direction towards Bury. It hovered in the distance for a minute before disappearing.
9 Mar 09	21:15 Hayes	Middlesex	An object hovering in the sky. The object had bright lights.
9 Mar 09	23:10 Holland on Sea	Essex	landing window. The beam of light narrowed and it came back as a ball shape. It was still for 90 seconds then vanished.
10 Mar 09	18:15 A3 South of M25	A3 South of M25	A long cylinder of gold light. It looked like a very bright shooting star. Observed it for 3 seconds.
10 Mar 09	22:10 Spalding	Lincolnshire	Strange orange lights in the sky
10 Mar 09	18:50 Barrow-in-Furness	Cumbria	The whole object was glowing like hot metal and there was no sound. It was travelling at the speed of a fighter or a satellite, from NW to SE. It looked to be flying quite low.
14 Mar 09	20:40 King's Lynn	Norfolk	the object was obscured by the light. It made no sound. Cannot determine speed, but was visible for two minutes. May have speeded up.
14 Mar 09	20:30 Hartlyn Bay	Cornwall	Five strange orange lights in formation, moving very quickly
14 Mar 09	20:15 Flitwick	Bedfordshire	Two UFOs. Orange globes that moved near together then separated and very gradually disappeared
14 Mar 09	18:50 Bugbrooke	Northamptonshire	A big bright red ball of fire travelling at a terrific speed.
17 Mar 09	Croydon	London	A bright orange light, the size of a helicopter. It looked like a flame or a flare but made no sound. It was moving very slowly.
17 Mar 09	20:30 Heywood	Lancashire	Three orange lights, evenly spaced and moving at the same speed. Gradually disappeared after five minutes. Heading from SE to NW
17 Mar 09	21:02 Bromsgrove	Worcestershire	A red fire ball travelling at extreme speed. It made no sound. Heading from Coventry to Leominster
17 Mar 09	05:35 Portsmouth	Hampshire	A wide pear drop shaped translucent green light with a small tail of light. Moved in NW direction. Made no noise and vanished after a few seconds.
17 Mar 09	00:35 N/A	N/A	The shape of a rectangle. It had a dull green glow with no other lights showing.
18 Mar 09	22:00 Milton Keynes	Buckinghamshire	Two very bright glowing orange lights moving at very high speed.
19 Mar 09	N/A	West Sussex	A constant light travelling West to East. Very erratic, wobbling off course then just disappeared.
20 Mar 09	18:50 Exton	Rutland	Large bright light seen to the east of Exton, moving south to north at high speed - at first mistaken for a planet
22 Mar 09	20:00 Adfa	Powys	Looked like a satellite crashing or a star. It was fairly pacy and then slowed to a halt. It moved off after 20 seconds and gathered speed. It became a dot and vanished.
22 Mar 09	19:55 Newtimber	West Sussex	A bright diamond shaped light. Definitely not an aircraft. Faster than an aircraft. Headed east for one minute before moving upwards and disappearing.
24 Mar 09	05:17 Bridgend	Glamorgan	Four UFOs flying beneath two aircraft. They moved much faster than the aircraft. Greyish in colour with a dome on top and bottom. Flew over the Waterton Industrial Estate

Dear **Section 40**

Thank you for your Freedom of Information request of 18 August 2009 asking for complete printed UFO sightings in the UK for the period 1997 onwards.

Details of sightings reported to the MoD for the period 1997-2008 are already available to the general public via the MoD website www.mod.uk. They can be located by searching under the phrase *UFO Reports*. I appreciate that you do not have your own computer, however, your local Public Library should have internet facilities for you to use and I am sure they will be willing to help you if you need assistance in locating the documents.

Details of sightings for the calendar year 2009 will be placed in the public domain early next year, but I enclose a paper copy of the details for the period January-August 2009. *

If you are not satisfied with this response or you wish to complain about any aspect of the handling of your request, then you should contact me in the first instance. If informal resolution is not possible and you are still dissatisfied then you may apply for an independent internal review by contacting the Head of Corporate Information, 6th Floor, MOD Main Building, Whitehall, SW1A 2HB (e-mail CIO-FOI-IR@mod.uk). Please note that any request for an internal review must be made within 40 working days of the date on which the attempt to reach informal resolution has come to an end.

If you remain dissatisfied following an internal review, you may take your complaint to the Information Commissioner under the provisions of Section 50 of the Freedom of Information Act. Please note that the Information Commissioner will not investigate your case until the MOD internal review process has been completed. Further details of the role and powers of the Information Commissioner can be found on the Commissioner's website, <http://www.ico.gov.uk>.

Yours sincerely

Section 40

Dear **Section 40**

Thank you for your Freedom of Information request regarding UFOs. You asked how far back the Ministry of Defence has known about UFOs and for a list of UFOs reported in the UK and for any true videos or film of UFOs.

Firstly, it may be helpful if I explain that the Ministry of Defence (MoD) examines any reports of 'unidentified flying objects' it receives solely to establish whether what was seen might have some defence significance; namely, whether there is any evidence that the United Kingdom's airspace might have been compromised by hostile or unauthorised air activity.

Unless there is evidence of a potential threat to the United Kingdom from an external source, and to date no UFO report has revealed such evidence, we do not attempt to identify the precise nature of each sighting reported to us. We believe that rational explanations, such as aircraft lights or natural phenomena, could be found for them if resources were diverted for this purpose, but it is not the function of the MoD to provide this kind of aerial identification service. It would be an inappropriate use of defence resources if we were to do so.

The MoD does not have any expertise or role in respect of 'UFO/flying saucer' matters or the question of the existence or otherwise of extraterrestrial life forms, about which it remains totally open-minded. I should add that to date, the MoD knows of no evidence which substantiates the existence of these alleged phenomena and therefore are not aware of any film or video of "true" UFOs.

Details of UFO sightings reported to the MoD for the period 1997-2008 can be found on our website at www.mod.uk by searching under *UFO Reports*. I appreciate that you do not have the internet, but your local public library should have internet capability and they should be able to assist you. I attach details of UFO sightings reported to the MoD for the period January-August 2009.

You may also wish to know that since 1967, following an increase in public interest in this subject, "UFO" report files are now routinely preserved. Files for 1967 to 1995, and any files prior to 1967 which did survive, are now available for examination at The National Archives,

I hope this is helpful.

UFO Sightings since 1996 -2009

Dear Sir

On the above heading is what I've seen, spotted over the years some I've taken photo's as well as videos of some from 2007 1st June 07 & 2008 plus others in the past few weeks which I've made it public in the local paper.

Some of the UFO'S which you can just make their shape out, but the one I took in 2007 when videoed it took less than 6th of second to enter & disappear when it buzzed this old ww11 tempest plane in the area of Dornock town & Eastriggs, the other outside my back garden when I videoed an RAF jet circling the area several times before I went out with my camera which was a cold cloudy day, when I started to video the jet at the same time this UFO just popped out from behind a cloud going all over the place & back into the clouds then there were others doing the same but only two of them just kept popping in & out of the clouds while the rest just stayed behind thin layers of the clouds I could just make out.

All the others were taken by different cameras I have & one that struck me the most of all when I did not have my camera then but I watched it for about 20 minutes it was all black, no port windows, no strobe lights, no sign of where the engines were as one would on any air craft, no sound at all very quiet, but underneath was what struck me most of all?

This UFO, would be about 40/60 feet circular the height from the bottom of the UFO to the top part about 15/20 if no more? Underneath this craft had two different shaped type boxes then all the area of it had earth military type camouflage we use on all vehicles & planes, it was about 500/1000feet above me & it just look likes a giant Frisbee! This was August 1996 Sunday A very clear blue sky it was 1:15pm, once I got home I made a model of it and made a rough birds eye view of it's path as it went over the Solway cost over into England towards the East coast?. I keep a kind of record of them so that I can keep track & numbers I've seen & caught on my cameras over the years.

I'm not on the internet or other nets, as I can't afford the cost or a decent PC, but do my best with I have, though I have been interested in UFO'S since my school days & would like to know how far back the UK M.O.D., has known of

* these space crafts that keep popping in & out of our planet buzzing our aircrafts or just floating over at a slow speed which you can pick out all the details but don't disappear or change shape.

I had two silver orbs on video one taken at the solway coast & above my house the latest I got was the last week of May 2009 while photographing two jets going in different directions when I saw 3 large space ships but managed to get all on my SLR camera but 2 of them when blown up look like battle ships from Star Wars Film its un cunning with the shape they are! To me they are the mother of all space crafts I've ever seen.

* What I hope if possible of a list of these crafts since seen & reported in our country to date plus any true videos/films & photos of these crafts as I would like to remake all my cuttings & information of magazines in order of date & time of year.

I'm X- RAF, 4RTR & R.O.C.

Look forward to hearing from

Yours faithfully

Dear Section 40

Further to my letter of 21 August I am now in a position to confirm that a check of our records for the area adjacent to Alton Barnes around 1400 on 26 June this year, shows that a few aircraft were operating in that area at that time. Unfortunately, these records do not distinguish whether the aircraft were military or civilian. Whilst two aircraft in particular could be observed, it is not possible to identify these aircraft, however it is possible that one was a military Gazelle aircraft operating out of Middle Wallop.

I hope this is helpful and please accept my apologies for the earlier confusion.

If you are not satisfied with this response or you wish to complain about any aspect of the handling of your request, then you should contact me in the first instance. If informal resolution is not possible and you are still dissatisfied then you may apply for an independent internal review by contacting the Head of Corporate Information, 6th Floor, MOD Main Building, Whitehall, SW1A 2HB (e-mail CIO-FOI-IR@mod.uk). Please note that any request for an internal review must be made within 40 working days of the date on which the attempt to reach informal resolution has come to an end.

If you remain dissatisfied following an internal review, you may take your complaint to the Information Commissioner under the provisions of Section 50 of the Freedom of Information Act. Please note that the Information Commissioner will not investigate your case until the MOD internal review process has been completed. Dear Section 40

Our Ref:

07-08-2009-100014-002

27 August 2009

Thank you for your Freedom of Information (FOI) request of 28 Jul 2009 asking whether there had been any military activity over Edinburgh at about 00:36 hours on Sunday 20th July 2009 and whether any reports that lights had been seen on that date over Edinburgh had been received.

The MoD has no central record of aircraft flying over Edinburgh on the date and time in question. In order for us to accurately answer your question, we would need to check with every flying station in the UK whether they had any aircraft in the area, the cost of which would exceed the £600 limit set for compliance with the Freedom of Information Act. This represents the cost of one person spending three and a half working days in determining whether the Department holds the information, and locating, retrieving and extracting the information. Under the terms of Section 12 of the FOI Act, this means that we are not obliged to comply with this element of your request at this time.

However, I can confirm that we have received no other reports of UFO sightings over Edinburgh for 19 or 20th July 2009.

It is of course possible that military aircraft may have been transiting the area, and that Edinburgh's civilian Air Traffic Control may have some record.

If you are not satisfied with this response or you wish to complain about any aspect of the handling of your request, then you should contact me in the first instance. If informal resolution is not possible and you are still dissatisfied then you may apply for an independent internal review by contacting the Head of Corporate Information, 6th Floor, MOD Main Building, Whitehall, SW1A 2HB (e-mail CIO-FOI-IR@mod.uk). I have an FOI request from people interested in UFOs, raising specific questions about whether there were any military aircraft in a specific area and you may be able to help. (My apologies, but for my sins in a previous life I now deal with UFO matters!)

Were there any military aircraft over Edinburgh at about 00:36 (I would go no more than 5 minutes either way on this) on Sunday 20 July 2009?

I am aware that this must be a pain for you to have to deal with and is not really a particularly valuable use of MoD resources, but under FOI, I don't think we have much room for manoeuvre. I would also be grateful if you could give me some indication of how much time you have to spend on each of these to provide me with an answer.

A response by 21 July 2009 would be greatly appreciated.

Obviously I am happy to discuss.
