Sent: 02 July 2009 09:13

To: Section 40

Subject: Release-Authorised: 20090702-UFO Report Section 40 Swansea-U

Dear Section 40

I am writing with reference to your report of an 'unidentified flying object', seen on 1 July 2009 over Swansea. This office is the focal point within the Ministry of Defence for correspondence relating to UFOs.

Firstly, it may be helpful if I explain that the Ministry of Defence (MoD) examines any reports of 'unidentified flying objects' it receives solely to establish whether what was seen might have some defence significance; namely, whether there is any evidence that the United Kingdom's airspace might have been compromised by hostile or unauthorised air activity.

Unless there is evidence of a potential threat to the United Kingdom from an external source, and to date no UFO report has revealed such evidence, we do not attempt to identify the precise nature of each sighting reported to us. We believe that rational explanations, such as aircraft lights or natural phenomena, could be found for them if resources were diverted for this purpose, but it is not the function of the MoD to provide this kind of aerial identification service. It would be an inappropriate use of defence resources if we were to do so.

The MoD does not have any expertise or role in respect of 'UFO/flying saucer' matters or the question of the existence or otherwise of extraterrestrial life forms, about which it remains totally open-minded. I should add that to date, the MoD knows of no evidence which substantiates the existence of these alleged phenomena.

With regard to your particular observation, I can confirm that we have received no other reports of UFO sightings so far from Swansea for 1 July 2009.

I am sorry I could not be more helpful.

i would like to report a UFO.

it happened 1st July 2009

location Pontarddulais Swansea

time 18.45 approx

description: High altitude, seemed rather large disc or round in appearance that moved like it was floating or bobbing up and down very slowly and took around 10 mins to fade from view. the object seemed dark in colour but would bounce sunlight off its surface.

weather conditions are very favorable and visibility was extremely good. one of the hottest and clearest days of the year. other aircraft could be seen at around that altitude and could be heard also. this object made no noise at all.

Subject: UFO sighting

Dear Sir/Madam,

I wish to report a UFO sighting.

Location: Looe, Cornwall, **Section 40**

Date: 27.06.2009

Time: 22:30 through to 22:50

Weather conditions: Clear sky

Sighting 1: Two orange balls of light travelling North, travelling parallel to one another constant speed, no noise. Sighting lasted approx. one minute before lights faded and then disappeared.

Sighting 2: One orange ball of light travelling North, further away than first sighting, no noise, light slowly faded and disappeared.

Sighting witnessed by more than one person.

Hope this will be of use to you.

Kind regards,

Air CmdSecCS-RAFBUSSec13 Section 40**From:** Air CmdSecCS-RAFBUSSec13 Section 40**Sent:** 01 July 2009 11:42**To:** Section 40**Subject:** Release-Authorised: 20090701-UFO Report Section 40 Rotherham-U

Dear Section 40

I am writing with reference to your e-mailed report of an 'unidentified flying object', seen on 26 June 2009 over Rotherham. This office is the focal point within the Ministry of Defence for correspondence relating to UFOs.

Firstly, it may be helpful if I explain that the Ministry of Defence (MoD) examines any reports of 'unidentified flying objects' it receives solely to establish whether what was seen might have some defence significance; namely, whether there is any evidence that the United Kingdom's airspace might have been compromised by hostile or unauthorised air activity.

Unless there is evidence of a potential threat to the United Kingdom from an external source, and to date no UFO report has revealed such evidence, we do not attempt to identify the precise nature of each sighting reported to us. We believe that rational explanations, such as aircraft lights or natural phenomena, could be found for them if resources were diverted for this purpose, but it is not the function of the MoD to provide this kind of aerial identification service. It would be an inappropriate use of defence resources if we were to do so.

The MoD does not have any expertise or role in respect of 'UFO/flying saucer' matters or the question of the existence or otherwise of extraterrestrial life forms, about which it remains totally open-minded. I should add that to date, the MoD knows of no evidence which substantiates the existence of these alleged phenomena.

With regard to your particular observation, I can confirm that we have received no other reports of UFO sightings so far from the Rotherham area for 26 June 2009.

I am sorry I could not be more helpful.

From: **Section 40**
Sent: 27 June 2009 11:22
To: Air CmdSecCS-UFO Desk (MULTIUSER)
Subject: U.F.O Rotherham 26/6/09 @ 22:25 approx

To whom it may concern,

I would like to report what I consider to be a U.F.O seen over Ravenfield, Rotherham, South Yorkshire on Friday the 26th of June 2009 at 22:25hrs. The object approached Ravenfield from the direction of Doncaster, it appeared to be a bright orange ball in the sky, at first my husband and I thought it was a plane in trouble as we are close to Robin Hood airport and thought that it was attempting an emergency landing, however the object made no noise and kept to a level flight path. The object passed overhead and stopped in the distance towards Sheffield, it hovered for a few moments then zigzagged left and right a few times before accelerating at tremendous speed, vanishing out of sight in a few seconds.

Thankyou, **Section 40**

UFO Report

1 July 2009

Dear Section 40

I am writing with reference to your report of an 'unidentified flying object', seen on 23 June 2009 over Rotherham, details of which were passed to us by South Yorkshire Police. This office is the focal point within the Ministry of Defence for correspondence relating to UFOs.

Firstly, it may be helpful if I explain that the Ministry of Defence (MoD) examines any reports of 'unidentified flying objects' it receives solely to establish whether what was seen might have some defence significance; namely, whether there is any evidence that the United Kingdom's airspace might have been compromised by hostile or unauthorised air activity.

Unless there is evidence of a potential threat to the United Kingdom from an external source, and to date no UFO report has revealed such evidence, we do not attempt to identify the precise nature of each sighting reported to us. We believe that rational explanations, such as aircraft lights or natural phenomena, could be found for them if resources were diverted for this purpose, but it is not the function of the MoD to provide this kind of aerial identification service. It would be an inappropriate use of defence resources if we were to do so.

The MoD does not have any expertise or role in respect of 'UFO/flying saucer' matters or the question of the existence or otherwise of extraterrestrial life forms, about which it remains totally open-minded. I should add that to date, the MoD knows of no evidence which substantiates the existence of these alleged phenomena.

With regard to your particular observation, I can confirm that we have received no other reports of UFO sightings so far from Rotherham for 23 June 2009.

I am sorry I could not be more helpful. 

Yours sincerely

Our Ref: UFO Report

1 July 2009

Dear **Section 40**

I am writing with reference to your report of an 'unidentified flying objects', seen in Chesterfield on 26 June, details of which you left on our answering machine. This office is the focal point within the Ministry of Defence for correspondence relating to UFOs.

Firstly, it may be helpful if I explain that the Ministry of Defence (MoD) examines any reports of 'unidentified flying objects' it receives solely to establish whether what was seen might have some defence significance; namely, whether there is any evidence that the United Kingdom's airspace might have been compromised by hostile or unauthorised air activity.

Unless there is evidence of a potential threat to the United Kingdom from an external source, and to date no UFO report has revealed such evidence, we do not attempt to identify the precise nature of each sighting reported to us. We believe that rational explanations, such as aircraft lights or natural phenomena, could be found for them if resources were diverted for this purpose, but it is not the function of the MoD to provide this kind of aerial identification service. It would be an inappropriate use of defence resources if we were to do so.

The MoD does not have any expertise or role in respect of 'UFO/flying saucer' matters or the question of the existence or otherwise of extraterrestrial life forms, about which it remains totally open-minded. I should add that to date, the MoD knows of no evidence which substantiates the existence of these alleged phenomena.

With regard to your particular observation, I can confirm that we have received no other reports of UFO sightings so far for Chesterfield on 26 June 2009.

I am sorry I could not be more helpful.

Subject: UFO sighting

On 24/6/09 at 22.05 hrs I saw strange sight above my home in Port Talbot SA13 1ES.
It was a bright circle of fire travelling south westerley across Swansea Bay.
It was not that high, maybe a few hundred feet and looked like a large ball of fire. It moved silently across the sky at about 30mph. I watched it for about 4 mins until it vanished from view. It appeared to be like an object on fire. The fire did not die out, and the object remained steady at the same height.

I have never reported anything before and Im not a UFO fanatic but this was just weird.

Our Ref:
UFO Report

24 June 2009

Dear Section 40

I am writing with reference to your report of an 'unidentified flying object', seen on DATE 2009 over Hull, details of which were passed to us by Humberside Police. This office is the focal point within the Ministry of Defence for correspondence relating to UFOs.

Firstly, it may be helpful if I explain that the Ministry of Defence (MoD) examines any reports of 'unidentified flying objects' it receives solely to establish whether what was seen might have some defence significance; namely, whether there is any evidence that the United Kingdom's airspace might have been compromised by hostile or unauthorised air activity.

Unless there is evidence of a potential threat to the United Kingdom from an external source, and to date no UFO report has revealed such evidence, we do not attempt to identify the precise nature of each sighting reported to us. We believe that rational explanations, such as aircraft lights or natural phenomena, could be found for them if resources were diverted for this purpose, but it is not the function of the MoD to provide this kind of aerial identification service. It would be an inappropriate use of defence resources if we were to do so.

The MoD does not have any expertise or role in respect of 'UFO/flying saucer' matters or the question of the existence or otherwise of extraterrestrial life forms, about which it remains totally open-minded. I should add that to date, the MoD knows of no evidence which substantiates the existence of these alleged phenomena.

With regard to your particular observation, I can confirm that we have received no other reports of UFO sightings so far from Hull for 23 June 2009.

I am sorry I could not be more helpful.

Yours sincerely,

Subject: UFO sighting

I just want to report a sighting of a UFO that my husband and I saw on Saturday night (20th June 2009) at midnight. We were in the car coming back from Lewis in Sussex towards Arundel (we were going past Durrington/Angmering) on the A27 and we saw a large orange glowing ball in the sky. It wasn't very high up (we saw a plane above it) and it wasn't moving. We drove under it and could see it even when a few miles further down the road.

If you have any further questions, please feel free to email me on this email address,

Best wishes,

txtincident: 22.30 on Friday 12th June 09

txtrequest: On friday evening while parking my car I looked up into the sky facing east and saw a very bright object. At first I thought it was a small plane but I couldn't see any flashing lights red or green just what looked like "fire". Using my watch as a compass, 12 being east the object was between 1 and 2 o'clock. It passed over head and went west between 7 and 8 o'clock. I followed its flight across the sky, as it went over the houses I saw what I believe to have been some sort of parachute appear from the rear of the object. The chute flapped about across the object blocking out the light. The object then merged into the night sky and I lost sight of it. During the flight overhead there was no sound of an engine but I was even more convinced the light I saw was fire. Living in this part of England I am very used to planes flying low over the Trent and Humber estuary so am very curious to what I have seen. Having served in the Army for 25 years I think I have seen a fair share of objects in the sky, engine powered and missiles, also as there is so much debris floating around up there what did I see? Unfortunately no one else was around to call as a witness. Can you help. I look forward to your reply. Section 40

Section 40

Just to confirm as requested our conversation of this afternoon.

Section 40 of Wroughton (Tel No **Section 40**) telephoned the RAF Lyneham ATC Supervisor on Monday, 15 Jun 09 to ask whether we had had any unusual aircraft in the vicinity of Wroughton between 1930 and 200hrs (local) the previous evening (14 Jun 09). I told him that nothing had been seen by the Lyneham controllers and we had had no reports of anything unusual. He told me that he had seen black, disc-shaped objects, 50ft in diameter with lights shining from beneath them hovering over crop circles near Barbury Castle (near Wroughton, just south of Junction 15 of the M4). The discs cast shadows beneath them and were captured on two separate video cameras. He asked me to let him know if we discovered anything about the objects.

I hope that this is of interest to you.

Subject: UFO Sighting in Stevenage

Hi

I would like to report what I think was a couple of UFO's. It was over old town Stevenage at 23.20 - 23.35. I went outside and saw two huge lights in the distance chasing each other like cat and mouse. They were moving really quickly towards each other and then away from each other. It was broken cloud and the lights would never go from the cloud, they would dart to the edge but then go back. It didn't look like the lights were coming up from the ground as there was no reflection on the clouds. It looked like the strong light was coming down from above the clouds. My wife also witnessed this for about five minutes. They both then shot off in the same direction (notherly) and I could no longer see them

I would be interested to know if anyone else saw this or what it may of been

Many Thanks

Our Ref: UFO Report

17 June 2009

Dear Section 40

I am writing with reference to your report of an 'unidentified flying objects', seen on 6 June near Lewes, details of which you left on our answerphone. This office is the focal point within the Ministry of Defence for correspondence relating to UFOs.

Firstly, it may be helpful if I explain that the Ministry of Defence (MoD) examines any reports of 'unidentified flying objects' it receives solely to establish whether what was seen might have some defence significance; namely, whether there is any evidence that the United Kingdom's airspace might have been compromised by hostile or unauthorised air activity.

Unless there is evidence of a potential threat to the United Kingdom from an external source, and to date no UFO report has revealed such evidence, we do not attempt to identify the precise nature of each sighting reported to us. We believe that rational explanations, such as aircraft lights or natural phenomena, could be found for them if resources were diverted for this purpose, but it is not the function of the MoD to provide this kind of aerial identification service. It would be an inappropriate use of defence resources if we were to do so.

The MoD does not have any expertise or role in respect of 'UFO/flying saucer' matters or the question of the existence or otherwise of extraterrestrial life forms, about which it remains totally open-minded. I should add that to date, the MoD knows of no evidence which substantiates the existence of these alleged phenomena.

With regard to your particular observation, I can confirm that we have received no other reports of UFO sightings so far from Lewes for 6 June 2009.

I am sorry I could not be more helpful.

Yours sincerely

txtrequest: No complaints sorry, this the only way I could report what ive just seen. Im in a garden in Porthcawl and witnessed a very odd light in the sky. Very bright, an orange colour, one circular shape. Moving from south west to south, still extremely bright. Then seemed to get smaller, possibly increasing altitude, definately moving further away. Could not hear any sound and did not look like any aircraft ive ever seen(obviously in porthcawl we see a lot of commercial flights on their way to rhouse, cardiff). After a few secocnds it got so small it disappeared.

I wonder if you could mail me if anyone else saw the same thing? It be nice to hear.

Regardless just thought id report it

txtrequest: at approx 23.00 hrs we noticed an orange light which travelled over our house from the south. This was not the normal flight path we see for aircraft going into Manchester airport. It was then followed by 2 more orange lights on the same path. This made me go outside to see yet there was no noise for a craft which was only at an altitude of a helicopter. A few seconds later 5 more objects appeared then another 2. I took pictures of the objects passing over but there was no noise and they then eventually gained height and all disappeared north.

Do you have any details of activity in our area which would explain this sighting.,

Kind regards,

Our Ref:
UFO Report

29 May 2009

Dear Section 40

I am writing with reference to your report of an 'unidentified flying object', seen on 24 May 2009 over Solihull, details of which you left on our answerphone. This office is the focal point within the Ministry of Defence for correspondence relating to UFOs.

Firstly, it may be helpful if I explain that the Ministry of Defence (MoD) examines any reports of 'unidentified flying objects' it receives solely to establish whether what was seen might have some defence significance; namely, whether there is any evidence that the United Kingdom's airspace might have been compromised by hostile or unauthorised air activity.

Unless there is evidence of a potential threat to the United Kingdom from an external source, and to date no UFO report has revealed such evidence, we do not attempt to identify the precise nature of each sighting reported to us. We believe that rational explanations, such as aircraft lights or natural phenomena, could be found for them if resources were diverted for this purpose, but it is not the function of the MoD to provide this kind of aerial identification service. It would be an inappropriate use of defence resources if we were to do so.

The MoD does not have any expertise or role in respect of 'UFO/flying saucer' matters or the question of the existence or otherwise of extraterrestrial life forms, about which it remains totally open-minded. I should add that to date, the MoD knows of no evidence which substantiates the existence of these alleged phenomena.

With regard to your particular observation, I can confirm that we have received no other reports of UFO sightings so far from Solihull for 24 May 2009.

I am sorry I could not be more helpful.

Yours sincerely

Subject: Strange Sighting

Dear Sir

On the evening of Saturday 16 May 2009, at approximately 22.00hrs, I glanced out of my living room window and saw a couple of bright orange lights in the sky.

At first I thought they were Police Helicopters but then realised that they were the wrong colour and too large. When I looked closer I realised that there were more of them, so I went to my front door for a better look. There were 7 of them and they were quite silent.

I live in Connah's Quay, Deeside, overlooking the Wirral, and the lights were travelling in that direction.

They drifted across the sky and eventually disappeared into the distance.

Is there any way you could tell me what these lights were, please?

Many thanks

Regards

Dear Section 40

I am writing with reference to your report of 'unidentified flying objects', seen on 16 May 2009 over Petts Wood, details of which you left on our answerphone. This office is the focal point within the Ministry of Defence for correspondence relating to UFOs.

Firstly, it may be helpful if I explain that the Ministry of Defence (MoD) examines any reports of 'unidentified flying objects' it receives solely to establish whether what was seen might have some defence significance; namely, whether there is any evidence that the United Kingdom's airspace might have been compromised by hostile or unauthorised air activity.

Unless there is evidence of a potential threat to the United Kingdom from an external source, and to date no UFO report has revealed such evidence, we do not attempt to identify the precise nature of each sighting reported to us. We believe that rational explanations, such as aircraft lights or natural phenomena, could be found for them if resources were diverted for this purpose, but it is not the function of the MoD to provide this kind of aerial identification service. It would be an inappropriate use of defence resources if we were to do so.

The MoD does not have any expertise or role in respect of 'UFO/flying saucer' matters or the question of the existence or otherwise of extraterrestrial life forms, about which it remains totally open-minded. I should add that to date, the MoD knows of no evidence which substantiates the existence of these alleged phenomena.

With regard to your particular observation, I can confirm that we have received no other reports of UFO sightings so far from Petts Wood for 16 May 2009.

I am sorry I could not be more helpful.

Subject: sighting 19/5/2009

I left an answerphone message on your hotline but wasn't very composed as I felt excited to what possible I have seen

My name is Section 40, I had previously reported a sighting in the past but nothing as clear as what I saw tonight at 22:15 on 19/5/2009 from Section 40 Long Eaton, Nottingham Section 40. The object appeared in the distance a few miles away 5 miles maybe I can't be sure but it appeared to have come from the southern east direction moving northwards in the sky. It passed directly across the sky on the anti-clockwise flight path that East Midlands planes usually take, it looked the same size as a commercial passenger plane like a typical 757 kind of size, but it was like an ellipse shape but like it was a plane which was on fire, it moved across the sky heading north which would have suggested it was heading into Nottingham, it was definitely not a helicopter you could just tell, it glowed this bright orange glow. It then moved back across the sky in between where it had come from and then stopped directly in the sky. It did not move at all for at least a minute it just stayed completely still in the, my mother and father all witnessed this at 10:15 pm approx, it then appeared to get further away then even further it must have been travelling at supersonic speed to have gone that fast and that far away in the distance.

I posted on Facebook also to see if anyone else had seen what I saw and a friend of mine also saw the same object but an hour later I find it really odd and just can't explain what I saw, we both individually commented on both sightings that it looked like a plane had burst into flames.

Subject: Release-Authorised: 20090519-UFO Report Northants Police Roade-U

Dear Section 40

Further to reports of an orange flash and a loud bang over Roade on 5 May 2009, I have checked with our air safety staff and they have confirmed that they have no reports of any military aircraft reporting damage on the date in question.

We are not aware of any military aircraft in the vicinity at the time of the incident, although radar returns suggest quite a lot of civilian traffic in the area at medium and high level.

The CAA may be able to help if one of the civilian aircraft reported an engine fire or some such, but I am afraid we have drawn a blank.

I am sorry I could not be more helpful.

CD No(s) *Not produced*

<u>Incident 088/09</u>	DTG 052120ZMay09 - Tuesday		
Position	<i>The village of Roade in Northamptonshire (N5209.9 W00053.8)</i>		
Incident	<i>A number of residents reported seeing a large orange flash followed by a loud bang</i>		
Radar Heads	<i>Debden, Stansted and Clee Hill</i>		
Recording starts	<i>N/A</i>	Recording ends	<i>N/A</i>
Orientation	<i>N/A</i>		

Synopsis of Events Based on Radar Replay: *Debden radar.*

The reported time was given as 2220. I assumed this was local time, which equates to 2120Z.

I looked at each of the above stated radars from 2045Z to 2200Z, with Debden radar providing the best coverage of the Incident Location (IL).

Nothing was seen to get close to or overfly the IL. There was a substantial amount of medium level and high level Civil Air Transport tracks in the vicinity of the IL, which were routing in numerous directions.

The East Midlands Police Air Support Unit helicopter could be seen operating in the vicinity of the IL from 2147Z to 2157Z.

Comments by RACO:

CD contents as follows:

As nothing significant was seen, a CD was not produced.

Subject: Release-Authorised: A FLASH AND A LOUD BANG!

Dear Section 40

As I explained when we spoke, I have two incidents I would like you to take a look at, and this is the second of those! I have sent two e-mails as it is administratively easier to keep the two incidents separate on our files, since it is possible people will ask for details of our investigation.

On 5 May 2009 at 22:20, a number of residents contacted the police to report seeing a large orange flash followed by a loud bang over the village of Roade, in Northamptonshire.

Given the number of reports (6) the police received, they police passed the (minimal) details on to us to see if we can identify what happened. They have checked in the local area for debris from an aircraft crash and drawn a blank. They also diverted a police helicopter that was in the area at the time to investigate shortly after the reports started coming in but, again, drew a blank.

The MoD has no reports of any of our aircraft being damaged or catching fire but it did occur to me that the flash and bang might have been a military aircraft hitting its after burners.

Can you check your records to see if there were any aircraft, particularly military, in the area at the time?

Again, I am happy to discuss.

Section 40

From: Section 40
Sent: 14 May 2009 14:21
To: Air CmdSecCS-UFO Desk
Subject: sighting x 2

I would like to explain what I saw on the night of Saturday 9th May 2009 over Section 40 Harlow Essex Section 40

A diamond shape orange light was above me which was also witnessed by my 7 year old son. It certainly was not a plane as these could be seen clearly at a greater height and all flashing lights could be seen on those. Above us (if you were to hold out your hand) it would have been the size of a 20 pence piece.

The object was almost silent as this was around 10pm, and carried on its path into the distance. I went to call my partner and at the same time was talking to my son about what we had both seen and in the same place another orange object appeared and travelled in the same direction, again, no flashing lights or obvious shape and also almost silent. I waited for almost 20 minutes trying to convince myself it may have been the route of planes, but nothing else was seen.

I managed to take a picture of the iphone which I have attached for you to view. The pictures are a little small, but I hope they can be of some help.

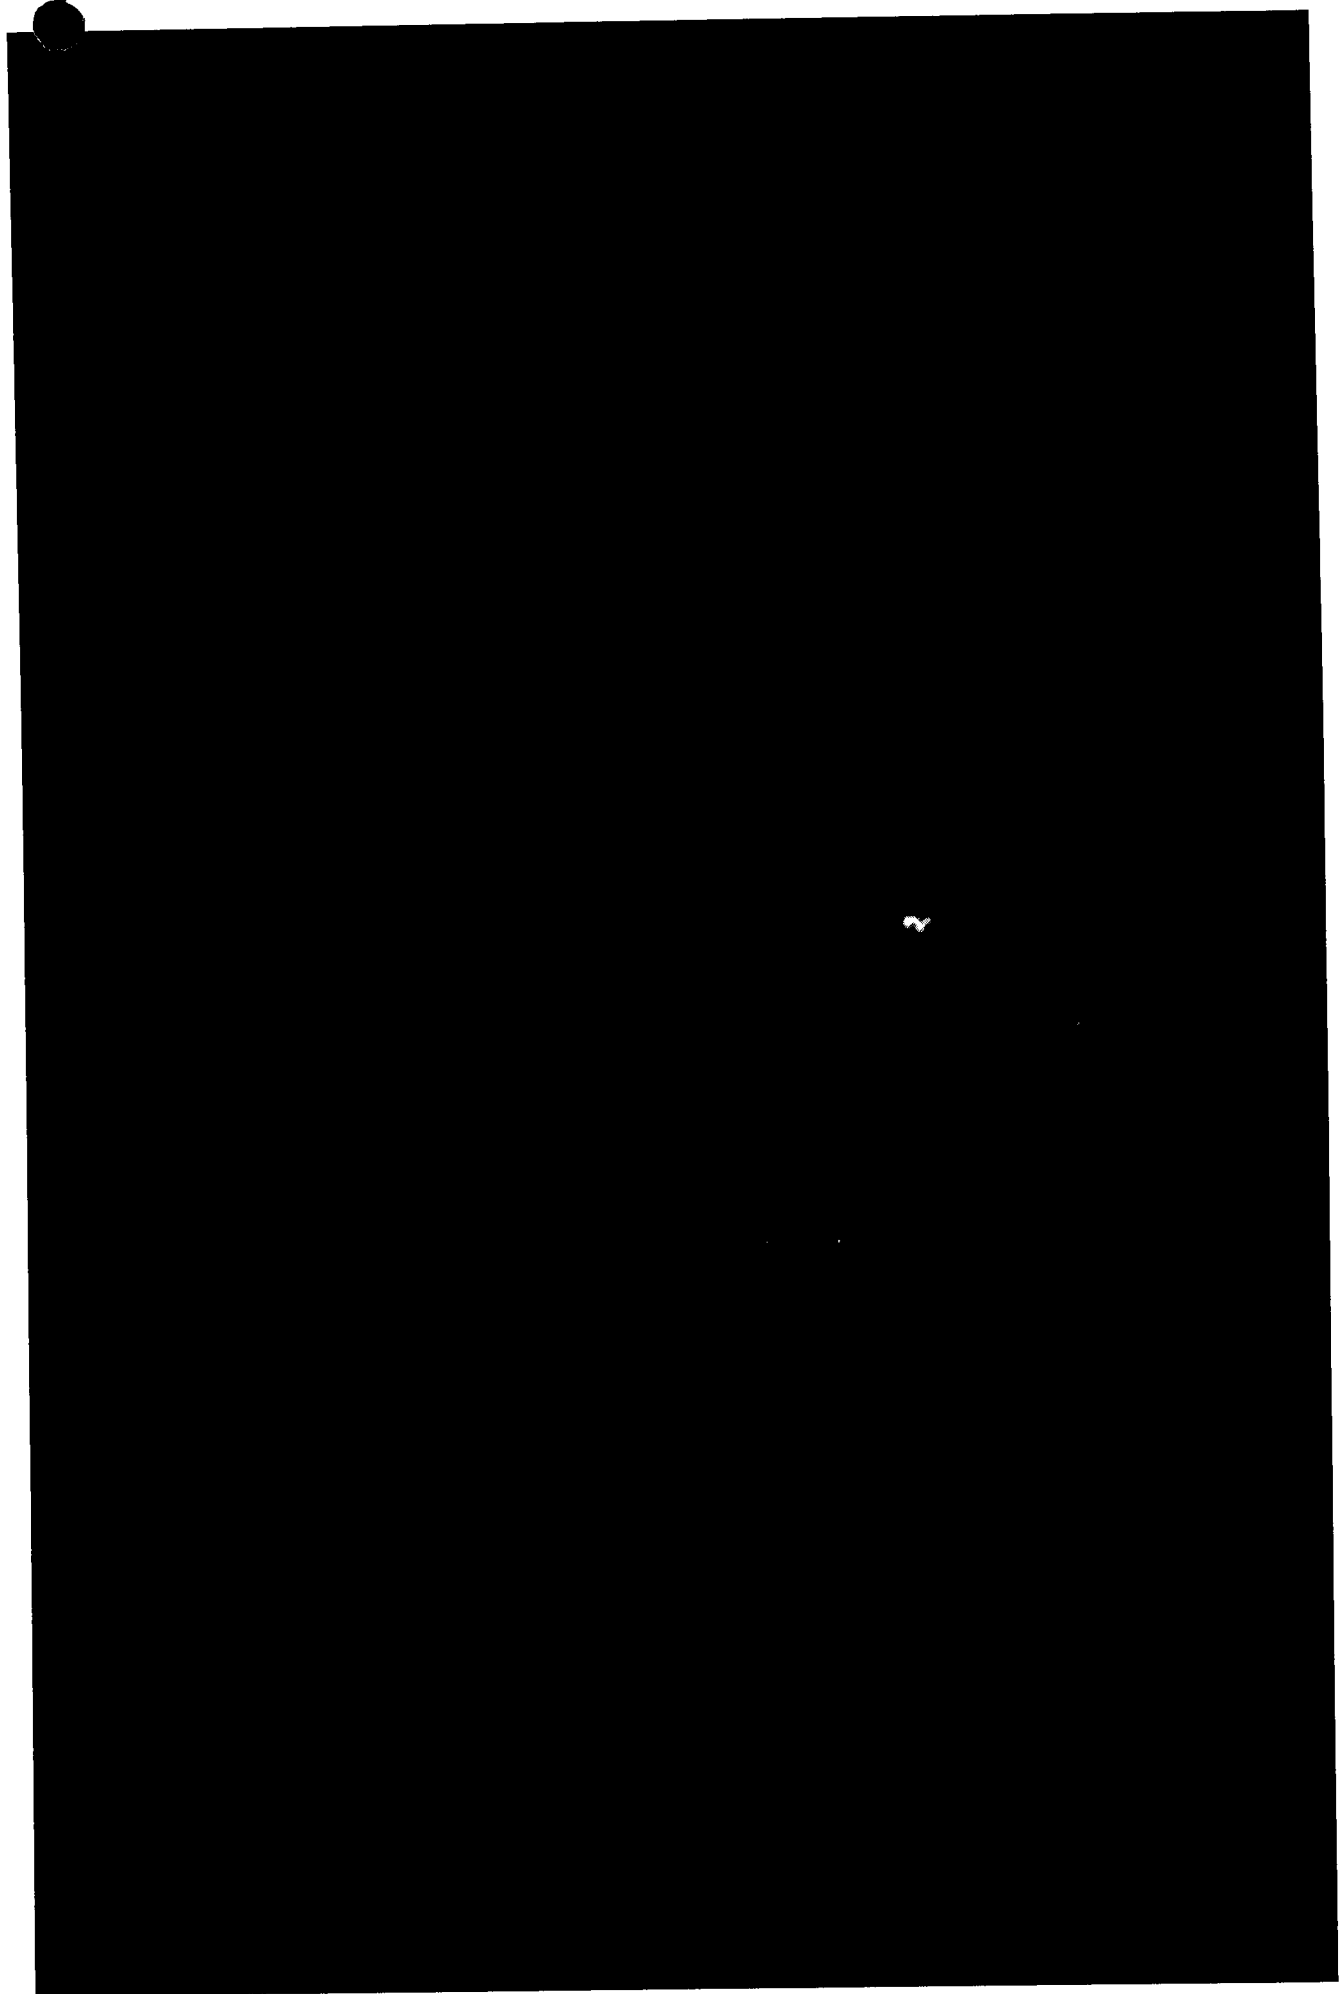

Any feedback would be great if its possible.

Thanks in advance

Our Ref: UFO Report

15 May 2009

Dear Section 40

I am writing with reference to your report of an 'unidentified flying object', seen on 11 May 2009 over Dibden, details of which you left on our answerphone. This office is the focal point within the Ministry of Defence for correspondence relating to UFOs.

Firstly, it may be helpful if I explain that the Ministry of Defence (MoD) examines any reports of 'unidentified flying objects' it receives solely to establish whether what was seen might have some defence significance; namely, whether there is any evidence that the United Kingdom's airspace might have been compromised by hostile or unauthorised air activity.

Unless there is evidence of a potential threat to the United Kingdom from an external source, and to date no UFO report has revealed such evidence, we do not attempt to identify the precise nature of each sighting reported to us. We believe that rational explanations, such as aircraft lights or natural phenomena, could be found for them if resources were diverted for this purpose, but it is not the function of the MoD to provide this kind of aerial identification service. It would be an inappropriate use of defence resources if we were to do so.

The MoD does not have any expertise or role in respect of 'UFO/flying saucer' matters or the question of the existence or otherwise of extraterrestrial life forms, about which it remains totally open-minded. I should add that to date, the MoD knows of no evidence which substantiates the existence of these alleged phenomena.

With regard to your particular observation, I can confirm that we have received no other reports of UFO sightings so far from Dibden for 11 May 2009.

I am sorry I could not be more helpful.

Yours sincerely

Subject: Release-Authorised: 20090515-UFO Report Section 40 Strathspey-U

Dear Section 40

Thank you for your e-mail of 21 April 2009 regarding your report of an 'unidentified flying object', seen on 14 April 2009 in the Strathspey area. This office is the focal point within the Ministry of Defence for correspondence relating to UFOs.

Firstly, it may be helpful if I explain that the Ministry of Defence (MoD) examines any reports of 'unidentified flying objects' it receives solely to establish whether what was seen might have some defence significance; namely, whether there is any evidence that the United Kingdom's airspace might have been compromised by hostile or unauthorised air activity.

Unless there is evidence of a potential threat to the United Kingdom from an external source, and to date no UFO report has revealed such evidence, we do not attempt to identify the precise nature of each sighting reported to us. We believe that rational explanations, such as aircraft lights or natural phenomena, could be found for them if resources were diverted for this purpose, but it is not the function of the MoD to provide this kind of aerial identification service. It would be an inappropriate use of defence resources if we were to do so.

The MoD does not have any expertise or role in respect of 'UFO/flying saucer' matters or the question of the existence or otherwise of extraterrestrial life forms, about which it remains totally open-minded. I should add that to date, the MoD knows of no evidence which substantiates the existence of these alleged phenomena.

With regard to your particular observation, I can confirm that we have received no other similar reports from the Strathspey area for 14 April 2009 and have no record of any military aircraft operating in the UK Low Flying System in the area at the time in question. Likewise, we have no record of any military exercise taking place, other than a group from the Exeter University Officer Training Corps hill walking near Kingussie and they would not have been issued with flares. It is, of course, always possible that you saw a police or even a private helicopter.

Turning to your other question about bright "landing lights" I can confirm that the military do use "nightsun" which, in effect, is a very bright spotlight that can be used to illuminate landing areas or by search and rescue to look for casualties. It could be this is what you noticed.

I hope this is helpful.
